Language Across the Curriculum & CLIL in English as an Additional Language (EAL) Contexts
Angel M.Y. Lin,2016-09-15 This book will be of interest to a broad readership regardless of whether they have a background in sociolinguistics functional linguistics or genre theories It presents an accessible meta language i e a language for talking about language that is workable and usable for teachers and researchers from both language and content backgrounds thus facilitating collaboration across content and language subject panels Chapters 1 to 3 lay the theoretical foundation of this common meta language by critically reviewing systematically presenting and integrating key theoretical resources for teachers and researchers in this field In turn Chapters 4 to 7 focus on issues in pedagogy and assessment and on school based approaches to LAC and CLIL drawing on both research studies and the experiences of front line teachers and school administrators Chapter 8 provides a critical and reflexive angle on the field by asking difficult questions regarding how LAC and CLIL are often situated in contexts characterized by inequality of access to the linguistic and cultural capitals where the local languages of the students are usually neglected or viewed unfavourably in relation to the L2 in mainstream society and where teachers are usually positioned as recipients of knowledge rather than makers of knowledge In closing Chapter 9 reviews the state of the art in the field and proposes directions for future inquiry

Teacher Involvement in High-Stakes Language Testing Daniel Xerri,Patricia Vella Briffa,2018-04-27 This book advocates that teachers should play an active role

in high stakes language testing and that more weight should be given to teacher judgement This is likely to increase the formative potential of high stakes tests and provide teachers with a sense of ownership The implication is that the knowledge and skills they develop by being involved in these tests will feed into their own classroom practices The book also considers the arguments against teacher involvement e g the contention that teacher involvement might entrench the practice of teaching to the test or that teachers should not be actively involved in high stakes language testing because their judgement is insufficiently reliable Using contributions from a wide range of international educational contexts the book proposes that a lack of reliability in teacher judgement is best addressed by means of training and not by barring educators from participating in high stakes language testing It also argues that their involvement in testing helps teachers to bolster confidence in their own judgement and develop their assessment literacy Moreover teacher involvement empowers them to play a role in reforming high stakes language testing so that it is more equitable and more likely to enhance classroom practices High stakes language tests that adopt such an inclusive approach facilitate more effective learning on the part of teachers which ultimately benefits all their students

Federal Register ,1953 A New English Dictionary on Historical Principles James Augustus Henry Murray,Sir William Alexander Craigie,Charles Talbut Onions,1888 *Research in Education* ,1971 The Preparation of Teachers of English as an Additional Language around the World Nihat Polat,Laura Mahalingappa,Hayriye Kayi-Aydar,2021-08-09 This book fills a critical gap in a neglected area in current educational research international teacher education It focuses on the preparation of teachers of English as an additional language EAL in several world regions The book consists of chapters by researchers in well established teacher education programs in 11 countries Brazil Canada China Finland Greece New Zealand Russia Saudi Arabia South Korea Turkey and the United States of America It takes a cross national comparative approach around four major focus areas policy research curriculum and practice offering critical implications that can help improve EAL teacher education programs in different parts of the world Teacher education is an area that has great potential for international cross pollination of ideas and actions and this book represents an important first step along this road
