Mobilizing for Human Rights Beth A. Simmons,2009-08-31 This volume argues that international human rights law has made a positive contribution to the realization of human rights in much of the world Although governments sometimes ratify human rights treaties gambling that they will experience little pressure to comply with them this is not typically the case Focusing on rights stakeholders rather than the United Nations or state pressure Beth Simmons demonstrates through a combination of statistical analyses and case studies that the ratification of treaties leads to better rights practices on average Simmons argues that international human rights law should get more practical and rhetorical support from the international community as a supplement to broader efforts to address conflict development and democratization

book examines the roots of the military industrial complex MIC in the eighteenth and nineteenth centuries the MIC s full flowering in the wake of the Cold War and how America s current MIC evolved after the events of 9 11 and throughout the War on Terror Specifically Cooling argues that the MIC has transformed into a problematic demand for absolute security that is neither practicable nor financially sound While emphasizing many aspects of Eisenhower s broad conception of the MIC and Eisenhower s own warning at the close of World War II Cooling s synthesis provides historical perspective on American industry as a matter of national security on the rise of outsourcing practices and on the changing nature of modern warfare

Congressional Record United States. Congress,1993 Indigenous Peoples and Globalization Thomas D. Hall,James V. Fenelon,2015-12-03 The issues native peoples face intensify with globalization Through case studies from around the world Hall and Fenelon demonstrate how indigenous peoples movements can only be understood by linking highly localized processes with larger global and historical forces The authors show that indigenous peoples have been resisting and adapting to encounters with states for millennia Unlike other antiglobalization activists indigenous peoples primarily seek autonomy and the right to determine their own processes of adaptation and change especially in relationship to their origin lands and community The authors link their analyses to current understandings of the evolution of globalization Military

Subcommittee on Military Construction Appropriations,1982 **Rorty's Elective Affinities** Marek

Kwiek,1996-04-01 The present book is devoted to European connections of Richard Rorty s neopragmatism Rorty can be connected to numerous controversies polemics and discussions with European philosophy and within its framework from Plato to Kant to Hegel to Habermas to Derrida Rorty gets into European discussions with American freshness and intellectual breadth and therefore he was listened to carefully and read with great interest His connections with European philosophical tradition are manifold complicated and diversified with a part of it he remains in a serious deep controversy Plato Kant with another part of it he remains in a cheerful agreement young Hegel from Phenomenology Nietzsche the early Heidegger the late Wittgenstein It is also the case with his connections with contemporary European philosophy apart from favorites Derrida Habermas there are those he dislikes the late Heidegger Foucault Rorty as a philosopher of the unprecedented erudition in his philosophizing takes a stance towards the whole philosophy which from our perspective of more than twenty five hundred years and Greek origins of philosophical conceptuality is European first and foremost We refer here to a polemical context of Rorty s writing it gives us the possibility of showing him from the perspective of others and in comparison with others The present book never had monographic intentions it does not want to tell a complete story of its philosophical protagonist in the manner of a German Bildungsroman that presents its hero from the perspective of passing time nor does it want to present the whole of Rorty s work from a unifying viewpoint or to present particular stages of Rorty s

development particular books starting with the early Rorty with the medium one to the late Rorty if the first would be supposed to be Rorty until Philosophy and the Mirror of Nature the second Rorty from this book and the latest Rorty from Contingency Irony and Solidarity onwards The book presented here intentionally is not a monograph hence its poetics and architecture are different Rorty is a philosopher who is still writing and we intended to provide his past writings with a new dimension presenting recontextualizations and redescriptions of them in the light of what he is thinking at the moment We have assumed here the following principle the work consists of chapters followed by philosophical excursions The former are focused on Rorty's philosophy the latter show his philosophy in struggles with other contemporary and past philosophers providing a more general philosophical background Philosophers from excursions as well as Rorty's polemics with them throw as much light to his philosophy as chapters themselves But they show it in a slightly different wider perspective necessary in my view for a more general and culturally significant understanding of importance of his philosophy Thus heroes of the excursions presented here are Jacques Derrida Jean-François Lyotard Michel Foucault Jürgen Habermas and Zygmunt Bauman as well as such great past philosophical figures as G.W.F. Hegel and Plato Why these philosophers rather than others First of all due to their importance to the development of Rorty's philosophy by means of defining its position with reference to their philosophical settlements or by means of philosophical tensions born between them Two factors were decisive the role played in Rorty's philosophy as he can see it and the role played in it as we can see it It is rather excursions that provide most contextual material to Rorty's work it is them that trace in detail his European connections The picture that emerges from them is fascinating due to Rorty's versatility because it is something totally different that is at stake in Rorty's struggles for fame and immortality with Derrida as I am trying to outline the debate here something else it is at stake in his political discussions with Lyotard and something still else in merely philosophical as he calls them debates with Habermas Without these contextual pieces I might be afraid that the book would be dry and devoid of the cultural surrounding of postmodernity in which Rorty's work has been written If Rorty's philosophy takes its life juice from controversies with European philosophy it is hard to imagine for me to cut them off in the present work and they are essential in my view to show the significance of Rorty's neopragmatism they are in tune I hope with the Rortyan way of practising philosophy
