

## UNIT 5 Answer Key (continued)

### Core Worksheet 3

#### Scenario A

1. Is asking students to recite a nondenominational prayer in the classroom a violation of separation of church and state and an endorsement of religion?
2. the school board and a parent of a student at the school
3. Students might respond that the school board's action violated the Establishment Clause by allowing a government-sponsored prayer. Because the prayer was nondenominational and did not support a particular religion, others might argue that the school board's action was legal.

#### Scenario B

1. Does the government's denial of unemployment benefits to workers who are fired because of their religious beliefs violate the workers' 1st Amendment rights?
2. former employee and State employment office
3. Students might argue that it did because it forced the woman to choose between her job and her religious beliefs.

#### Scenario C

1. Is it constitutional for the public school district to support a religious education program that endorses a particular religion?
2. parents of two elementary school students and the school board
3. No, it clearly has a religious purpose, it advances a particular religion, and it "entangles" government with religion by taking place in public schools. The school board's decision to allow the program in its elementary schools implies government support or endorsement of this program.

#### Scenario D

1. Did the school's dress code violate the right of a student to wear a religious head covering in school?
2. the student's family and school officials
3. Some might argue that refusing to allow students to wear religious head coverings violates the Free Exercise Clause of the 1st Amendment. Others might argue that allowing students to wear religious head coverings constitutes an endorsement of religion, violates content neutrality, or shows favoritism to one religious group over others.
