Kathleen Pitirri, Joan T. Richtsmeier, 2021-09-14 Many complex traits define the primate condition including behaviors as fundamental as locomotion and traits as scrutinized as the dentition and their study reveals dramatic evolutionary change across the primates Genetic modifications are at the basis of these changes but transformation of genetic information into phenotypes occurs at the level of the cell which is the focus of this book Contributors summarize novel methodologies to analyze the collective behavior of cells in forming tissues and organs influencing physiological

functions and anatomical features that enable behaviors Our goal is to review current knowledge and encourage others to adopt evolutionary cell biology to aid in deciphering the genotype phenotype map that underlies the diversification of primates human variation and human evolution The contributors to this book utilize advances in genetic analysis and visualization of cells and tissues and merge evolutionary developmental biology with evolutionary cell biology to address questions central to understanding human and primate evolution Key Features Explores mechanisms underlying trait development distribution variation and evolution especially with respect to pigmentation dental formulae the skeleton energetics and temperature related morphological variation Documents the advantages for anthropologists to work at the level of cells focusing on how genes provide instructions for cells to make structure and how environment affects the behavior of cells Illustrates the role cell biology plays in pelage growth and pigmentation facial morphology melanin production in pigmentation dental development and tooth loss and energy expenditure Describes novel methodologies and techniques to analyze environment and temperature related influences on phenotypes Demonstrates how significant changes in life history occur at the level of the cell Related Titles Bianchi L Developmental Neurobiology ISBN 978 0 8153 4482 7 King G R Primate Behavior and Human Origins ISBN 978 1 138 85317 1 Rhys Evans P H The Waterside Ape An Alternate Account of Human Evolution ISBN 978 0 367 14548 4 Audio-visuals Relating to Animal Care, Use, and Welfare Jean A. The Anglican Communion at a Crossroads Christopher Craig Brittain, Andrew McKinnon, 2018-04-17 Worldwide debates over issues of sexuality and gender have come to a head in recent years in mainline and evangelical churches with the Anglican Communion a worldwide network of churches that trace their practice to Canterbury and claim some 85 million members among the most publicly visible sites of contestation This

thorough and compelling analysis of the conflicts within the Communion argues that they are symptoms of long simmering issues that must be addressed when Anglican bishops and archbishops meet at the 2020 Lambeth Conference To many the disagreements over such issues as LGBTQ clergy same sex marriage and women s ordination suggest an insurmountable crisis facing Anglicans one that may ultimately end the Communion Christopher Craig Brittain and Andrew McKinnon argue otherwise Drawing on extensive empirical research and interviews with influential Anglican leaders they show how these struggles stem from a complex interplay of factors notably the forces and effects of globalization new communications technology and previous decisions made by the Communion In clarifying both the theological arguments and social forces at play as the bishops and primates of the Anglican Communion prepare to set the Church s course for the next decade Brittain and McKinnon combine sociological and theological methodologies to provide both a nuanced portrait of Anglicanism in a transnational age and a primer on the issues with which the Lambeth Conference will wrestle Insightful informative and thought provoking *The Anglican Communion at a Crossroads* is an invaluable resource for understanding the debates taking place in this worldwide community Those interested in Anglicanism sexuality and the Christian tradition the sociology of religion and the evolving relationship between World Christianity and churches in the Global North will find it indispensable
