

Legal and Financial Due Diligence Report on Primary Medical Services & Delegated Responsibility

Executive Summary

1. Introduction

- 1.1. The CCGs successfully applied for Level 2 arrangements (joint commissioning with NHS England) and duly established a joint committee with NHS England for this purpose. Through South West London Collaborative Commissioning ("**SWL CC**"), Capsticks provided the CCGs with advice on all aspects of the application process and the subsequent creation of the joint committee with NHS England.
- 1.2. The CCGs, except for Croydon CCG, submitted an expression of interest for full delegated (Level 3) arrangements to take effect from 1 April 2016 (the "**Application for Delegation**") on 6 November 2015. If successful on any such application, the CCGs would assume sole day to day responsibility (albeit on a delegated basis) for the discharge of functions in relation to primary medical services that they currently exercise jointly with NHS England, and for the associated budget.
- 1.3. Accordingly, the CCGs have commissioned a high level financial and legal due diligence exercise on the GMS, PMS and APMS Contracts through which the primary medical services are provided for which they may assume delegated responsibility from NHS England. RSM (formerly known as Baker Tilly) have been appointed to deal with the former, and Capsticks have been asked to provide the latter, which together, forms this report ("**Report**"). NHS England has been involved in the design of and have approved the scope of the financial and legal due diligence exercise. NHS England have also seen and commented on this Report and where possible, these comments have been incorporated into this Report and/or the NHS England Statements for Reliance at Annex 4.
- 1.4. This Report comprises the Legal Due Diligence Executive Summary and Financial Due Diligence Executive Summary for SWL. This Executive Summary is a summary of the

Handbook of Corporate Finance Bjørn Espen Eckbo, 2007-05-21. Judging by the sheer number of papers reviewed in this Handbook, the empirical analysis of firms' financing and investment decisions, empirical corporate finance has become a dominant field in financial economics. The growing interest in everything corporate is fueled by a healthy combination of fundamental theoretical developments and recent widespread access to large transactional data bases. A less scientific but nevertheless important source of inspiration is a growing awareness of the important social implications of corporate behavior and governance. This Handbook takes stock of the main empirical findings to date across an unprecedented spectrum of corporate finance issues ranging from econometric methodology to raising capital and capital structure choice and to managerial incentives and corporate investment behavior. The surveys are written by leading empirical researchers that remain active in their respective areas of interest. With few exceptions, the writing style makes the chapters accessible to industry practitioners. For doctoral students and seasoned academics, the surveys offer dense roadmaps into the empirical research landscape and provide suggestions for future work. The Handbooks in Finance series offers a broad group of outstanding volumes in various areas of finance. Each individual volume in the series should present an accurate self-contained survey of a sub-field of finance. The series is international in scope with contributions from field leaders the world over.

Handbook of Empirical Corporate Finance SET Bjørn Espen Eckbo, 2008-12-23. This two volume set summarizes recent research on corporate decision making. In the second volume, contributors focus on the ways corporations are structured and the practices through which they can be bought and sold. Thus its major subjects include dividends, capital structure, financial distress, takeovers, restructurings and managerial incentives. Takes stock of the main empirical findings to date across an unprecedented spectrum of corporate finance issues. Contributors are leading empirical researchers that remain active in their respective areas of expertise. Writing style makes the chapters accessible to industry practitioners.
