

Informational Interview Example

The following is an informational interview done by a student: Informational Interview #2

Tom J. Wong

Self-employed museum exhibition designer

What things do you do each day?

I interview clients who usually represent a museum e.g. a curator . After the client has stated their particular design problem, I analyze-the problem from a variety of perspectives. The primary objective of museum display is preservation of the object. Design and display are secondary to this. With this in mind, I take into consideration physical requirements, lighting, equipment like computers or videos, construction factors like partitions and walls, display cases, colors and label display.

Along with all of these considerations, I have to factor in a budget as defined by the client. Sometimes, too, I have to consider things like shipping if the show is a traveling one and the display cases are going with the objects.

How were you trained for this career?

I received my undergraduate degree in Fine Arts and then received my masters in Architecture although now the same school M.I.T. (Massachusetts Institute of Technology) is calling the discipline Visual Studies. I continue my education by taking classes at the Massachusetts College of Art and by doing computer workshops at the media lab. at M.I.T.

I did purely architectural work at first and then started to bid on museum design work. I worked at the Boston Museum of Fine art for over 25 years on a contract basis. I also have done work for the Peabody Museum at Harvard and some of the other art museums around Boston. I also design special retail exhibits or shows like the Fuller Cadillac showroom.

Moser, G. Kalton, 2017-03-02 This book provides a comprehensive account of the methods used in social surveys All the stages of a survey are covered from the original planning to the drafting of the final report Throughout the emphasis is on the underlying principles with particular attention being given to sampling a subject which often troubles students and research workers The book will be of great value to students in social sciences as well as research workers and people concerned with social surveys in government and the business world *Background Papers on Industry's Changing Role in Health Care Delivery* R.H. Egdahl, 2012-12-06 Excerpt from Conference Address One of the most complex and significant social issues facing our nation is reform of our national health system I am personally committed and Goodyear Tire Rubber is committed to doing everything we can to help improve that system while simultaneously gaining some measure of control over the tremendous rate of cost escalation I feel very strongly that in the months ahead business leaders must become actively involved in a concerted effort to strike a balance between our desire to assure the best medical care for all and the reality of doing so at a cost our society can afford For the past two years I have been chairman of the Business Roundtable's Task Force on Health and in that capacity have been working closely with the Washington Business Group on Health Through this exposure and the encouraging results of Goodyear's own cost containment activities I was asked to serve on HEW Secretary

Califano's Advisory Committee on National Health Insurance This committee representing a broad spectrum of interests and expertise will be meeting in cities across the country and will hold hearings in Washington before entering into final discussions with HEW and other administration officials The result of its work is to be combined with that of the HEW staff in formulating the basis of President Carter's national health insurance proposal *Appendix; the Technical Papers of the First Report of the National Commission on Marihuana and Drug Abuse* United States.
