Standards-Based Physical Education Curriculum Development Chair and Professor Georgia State University Atlanta Georgia Jacalyn Lund, Jacalyn Lund, Deborah Tannehill, 2014-04-21 The Third Edition was created around the 2014 National Standards for Physical Education for K 12 education Written by experts with a wealth of experience designing and implementing thematic curriculum this innovative resource guides readers through the process of writing dynamic curriculum in physical education The text begins by looking at the new national standards and then examines physical education from a conceptual standpoint It goes on to examine the development of performance based assessments designed to measure the extent of student learning and explores the various curricular models common to physical education It delves

into sport education adventure education outdoor education traditional multi activity fitness and movement education describing each model and how it links with physical education standards New and Key Features of the Third Edition Includes a new Chapter 2 International Perspectives on the Implementation of Standards Includes a new Chapter 4 Building the Curriculum Includes a new Chapter 6 Creating Curricular Assessments Discusses the process of designing a standards based curriculum by developing goals that are based on a sound philosophy Explores assessment and the importance of documenting students progress toward the standard Examines how teachers can provide students with opportunities to achieve their learning goals through challenging and motivating choices

Understanding by Design Grant P. Wiggins, Jay McTighe, 2005 What is understanding and how does it differ from knowledge How can we determine the big ideas worth understanding Why is understanding an important teaching goal and how do we know when students have attained it How can we create a rigorous and engaging curriculum that focuses on understanding and leads to improved student performance in today's high stakes standards based environment Authors Grant Wiggins and Jay McTighe answer these and many other questions in this second edition of *Understanding by Design* Drawing on feedback from thousands of educators around the world who have used the UbD framework since its introduction in 1998 the authors have greatly revised and expanded their original work to guide educators across the K-16 spectrum in the design of curriculum assessment and instruction With an improved UbD Template at its core the book explains the rationale of backward design and explores in greater depth the meaning of such key ideas as essential questions and transfer tasks Readers will learn why the familiar coverage and activity based approaches to curriculum design fall short and how a focus on the six facets of understanding can enrich student learning With an expanded array of practical strategies tools and examples from all subject areas the book demonstrates how the research based principles of *Understanding by Design* apply to district frameworks as well as to individual units of curriculum Combining provocative ideas thoughtful analysis and tested approaches this new edition of *Understanding by Design* offers teacher designers a clear path to the creation of curriculum that ensures better learning and a more stimulating experience for students and teachers alike
