

Team Building Proposal

The role of team work in institutions has been identified as being critical. Good organizational performance can be attributed to the quality and nature of the team and the interaction amongst team members. It is therefore imperative that institutions are seen to function and perform their duties as effective and efficient as possible.

Team cohesion, synergy and a shared vision are a requirement for any institution to succeed. As a result the need to instill such is important. Team building activities have been identified as one sure way of enhancing effectiveness of a group/team whether a board, senior management or staff in an organization since institutions require teams whenever producing the desired outcome depends on integrating diverse skills, interests and efforts.

An effective team process releases, and then multiplies, the effectiveness of each member. The resulting synergy makes it possible to develop and implement better solutions, more acceptable solutions, and more successful solutions. People then become more than isolated individuals in the work environment. Several individuals working cooperatively together have greater potential to create success. Therefore, world – class organizations should make concerted efforts to develop high performing teams which gear towards organization's success in all its business fronts.

The consultants intend to impart, through experiential learning, current skills, attitudes, and knowledge in team dynamics to the participating employees. Most of the critical ingredients in a team-building program, such as Strategic Thinking, Interpersonal Skills, Leadership, Team Synergy, Team Cultures and Thriving in Change shall be explored.

TEAM BUILDING OBJECTIVES

The best way to enhance team building is to do it and experience its value through a set of activities. Such activities will help to:

- Inculcate a sense of Strategic Thinking in the delegates
- Challenge the existing mental models especially those that may be counter to producing desired results
- Build team cohesion by breaking barriers in interpersonal relationships
- Improve interpersonal communication and enhance negotiation skills
- Enhance self discipline & appreciation of the role of leadership by building mutual trust and confidence
