

The background of the book cover is a composite image. The top half shows a close-up of industrial machinery, possibly a crane or part of a large vessel, with a worker in a blue uniform and hard hat visible. The bottom half shows a group of workers in silhouette, walking through a brightly lit, curved tunnel or large pipe. The overall color palette is dominated by blues, greys, and yellows, creating a sense of a high-tech, industrial setting.

Team Leadership In High Hazard Environments:

Team Leadership in High-Hazard Environments Mr Randy E Cadieux,2014-12-28 Safety performance is a complicated issue particularly in high hazard environments where time and other constraints as well as impacts can be exaggerated From an organizational and business perspective safety and production performance are often seen as competing goals Team Leadership in High Hazard Environments recognizes these difficulties and constraints and proposes an approach to safety leadership in which safety and organizational performance are inextricably linked one that addresses safety from both the systems and human factors perspectives This is an important book that draws on techniques and models developed from crew resource management human factors risk management as well as more traditional HR management disciplines

Team Leadership in High-Hazard Environments Randy E. Cadieux,2016-04-01 Safety performance is a complicated issue particularly in high hazard environments where time and other constraints can be amplified and result in numerous impacts From an organizational and business perspective safety and production performance are often seen as competing goals When production is increased safety defenses and barriers frequently decrease and when programs are developed in an effort to improve safety employees may be unable to meet production goals within the safety constraints Team Leadership in High Hazard Environments recognizes these difficulties and constraints and proposes an approach to safety leadership in which safety and organizational performance are inextricably linked one that addresses safety from both the systems and human factors perspectives To that end Randy Cadieux introduces the nine essential components to team leadership By studying these areas and using the information in each chapter organizational leaders managers and supervisors will gain an understanding of key factors that will help them design develop and implement team training programs that improve the way employees work together and the way they mitigate hazards Additionally the book describes how work systems and work environments may be designed or shaped so that teams are placed in a position to do their optimal work maximizing the potential for human and team performance This is an important book that draws on techniques and models developed from Crew Resource Management human factors risk management as well as more traditional HR management disciplines
