The Writing Public Elizabeth Andrews Bond, 2021-03-15 Inspired by the reading and writing habits of citizens leading up to the French Revolution *The Writing Public* is a compelling addition to the long running debate about the link between the Enlightenment and the political struggle that followed Elizabeth Andrews Bond scoured France's local newspapers spanning the two decades prior to the Revolution as well as its first three years shining a light on the letters to the editor A form of early social media these letters constituted a lively and ongoing conversation among readers Bond takes us beyond the glamorous salons of the intelligentsia into the everyday worlds of the craftsmen clergy farmers and women who composed these letters As a result we get a fascinating glimpse into who participated in public discourse what they most wanted to discuss and how they shaped a climate of opinion *The Writing Public* offers a novel examination of how French citizens used the information press to form norms of civic discourse and shape the experience of revolution The result is a nuanced analysis of knowledge production during the Enlightenment Thanks to generous funding from The Ohio State University Libraries and its participation in TOME Toward an Open Monograph Ecosystem the ebook editions of this book are available as Open Access OA volumes available on the Cornell University Press website and other Open Access repositories

The Political Arrays of American Indian Literary History James H. Cox, 2019-09-17 Bringing fresh insight to a century of writing by Native Americans *The Political Arrays of American Indian Literary History* challenges conventional views of the past one hundred years of Native American writing bringing Native American Renaissance and post Renaissance writers into conversation with their predecessors Addressing the political positions such writers have adopted explored and debated in their work James H Cox counters what he considers a flattening of the politics of American Indian literary expression and sets forth a new method of reading Native literature in a vexingly politicized context Examining both canonical and lesser known writers Cox proposes that scholars approach these texts as political arrays confounding but also generative collisions of conservative moderate and progressive ideas that together constitute the rich political landscape of American Indian literary history Reviewing a broad range of genres including journalism short fiction drama screenplays personal letters and detective fiction by Lynn Riggs Will Rogers Sherman Alexie Thomas King Leslie Marmon Silko Louise Erdrich Winona LaDuke Carole laFavor and N Scott Momaday he demonstrates that Native texts resist efforts to be read as advocating a particular set of politics Meticulously researched *The Political Arrays of American Indian Literary History* represents a compelling case for reconceptualizing the Native American Renaissance as a literary historical constellation By focusing on post 1968 Native writers and texts argues Cox critics have often missed how earlier writers were similarly entangled hopeful frustrated contradictory and unpredictable in their political engagements
