

### Child Development Theorist Study Guide

Summarize the studies and theories/ideas of the child development researchers below. Use the "Working with Young Children" and "Child Care Today" textbooks to complete the task.

| Researcher        | Theories/Ideas   | Significance of Ideas   |
|-------------------|--|---|
| Erik Erikson      | the psychosocial theory  | his theory provided new insights into the formation of a healthy personality. it emphasises the social and emotional aspects of growth.               |
| Sigmund Freud     | psychoanalyst, freud believed the emotional or psychological problems of adults are connected to how their parents and care providers met their basic needs as children                  | childhood is much more important than previously thought experiences in childhood can profound long lasting effects on adult life.                    |
| Arnold Gesell     | His maturation theory asserts that young children's development occurs in stages that are not strictly correlated to age.  | Through his observations and research, Gesell concluded that children go through predictable stages of growth.  |
| Lawrence Kohlberg | organized development stages by how children learn right from wrong. Said young children choose what seems in their best interests but teens are influenced by their parents and friends | knowing a child's current development stage allows you to understand his or her reasons for a decision and to help him or her learn right from wrong. |
| Abraham Maslow    | known for his theory on the hierarchy of needs, the lowest and most basic needs are physical, such as food and   | children rely completely on their care providers to fulfill their basic needs.  |
