How to Teach Maths Steve Chinn,2020-11-23 How to Teach Maths challenges everything you thought you knew about how maths is taught in classrooms Award winning author Steve Chinn casts a critical eye over many of the long established methods and beliefs of maths teaching Drawing from decades of classroom experience and research he shows how mathematics teaching across the whole ability range can be radically improved by learning from the successful methods and principles used for the bottom quartile of achievers the outliers Chinn guides readers through re adjusting the presentation of maths to learners considering learners needs first and explains the importance of securing early learning to create a conceptual foundation for later success This highly accessible book uses clear diagrams and examples to support maths teachers through many critical issues including the following The context of maths education today Topics that cause students the most difficulty Effective communication in the mathematics classroom Addressing maths anxiety The perfect resource for maths teachers at all levels this book is especially useful for those wanting to teach the foundations of mathematics in a developmental way to learners of all ages and abilities It has the potential to change the way maths is taught forever

Reading Bernstein, Researching Bernstein Brian Davies,Ana Morais,Johan Muller,2004-06-24 Basil Bernstein is arguably one of the most important educational theorists of the late 20th century Whilst most academics and students in sociology of education know of Bernstein few can claim to fully understand the scope and power of his work which simply cannot be matched by any of his contemporaries This book written by a team of international contributors offers an insight into the richness and depth of his theories It demonstrates the growing

recognition of the value of Bernstein's work to understanding unfolding developments in education systems around the world today. The volume is divided into four sections. Section 1 considers the work of the theorists that Bernstein worked through and with, from Durkheim and Marx to Bourdieu and Foucault. Section 2 focuses on teaching and learning in school contexts and draws on current issues like boys' underachievement, citizenship, system reform, and language learning in varied cultural contexts. Section 3 applies Bernstein's theories to teacher education. Section 4 focuses on international and higher education. This comprehensive text will show the international academic community in education and sociology, as well as students in education, sociology, sociolinguistics, and social psychology, degrees how to read and use Bernstein. **Atlanta Magazine**
