Fundamentals of Futures and Options Markets was adapted for the Australian market by a local team of respected academics. Important local content distinguishes the Australasian edition from the US edition including the unique financial instruments commonly traded on the Australian securities and derivatives markets and their surrounding conventions. In addition, the inclusion of Australasian and international business examples makes this text the most relevant and useful resource available to Finance students today. Hull presents an accessible and student-friendly overview of the topic without the use of calculus and is ideal for those with a limited background in mathematics. Packed with numerical examples and accounts of real-life situations, this text effectively guides students through the material while helping them prepare for the working world. For undergraduate and postgraduate courses in derivatives, options and futures, financial engineering, financial mathematics and risk management.

Visible Thinking in the K-8 Mathematics Classroom Ted H. Hull, Don S. Balka, Ruth Harbin Miles, 2011-01-21. This book is a crucial tool for meeting NCTM mathematical content and process standards. Through the useful problems and strategies presented within, teachers will definitely know how well their students will comprehend. If comprehension is an issue in your class, this book is a must-have. Therese Gessler Rodammer, Math Coach, Thomas W. Dixon Elementary School, Staunton, VA. Seeing is believing with this interactive approach to math instruction. Do you ever wish your students could read each other's thoughts? Now they can, and so can you. Veteran mathematics educators Ted Hull, Don Balka, and Ruth Harbin Miles explain why making students' thought processes visible is the key to effective mathematics instruction. Their newest book contains numerous grade-specific sample problems and instructional strategies for teaching essential concepts such as number sense, fractions, and estimation. Among the many benefits of visible thinking are interactive student-to-student learning, increased class participation, development of metacognitive thinking, and problem-solving skills. Helpful features include vignettes, relevant word problems, classroom scenarios, sample problems, lessons.

adaptations and easy to follow examples of each strategy in action The authors also explain how students can demonstrate their thinking using calculators and online tools The final chapter outlines steps math leaders can take to implement visible thinking and maximize mathematics comprehension for all students

Person to Person Peacebuilding, Intercultural Communication and English Language Teaching Amy Jo Minett, Sarah E. Dietrich, Didem Ekici, 2022-03-16 This book maps the discursive terrain and potential of person to person peacebuilding as it intersects with and is embedded in intercultural communication It foregrounds the voices and discourses of participants who came together in the virtual intercultural borderlands of online exchange through a service learning project with a non profit organization which focused on peace through education in Afghanistan primarily through English language tutoring By analyzing the voices and perspectives of US based tutors who are pre service teachers of English as an Additional Language in equal measure with the voices and perspectives of adult English learners in Afghanistan the authors examine how intercultural interactants begin to work as peacebuilders The participants describe the profound transformations they undergo throughout their intercultural tutoring journeys transformations which evidence three dimensions of person to person peacebuilding the personal relational and structural Inspired by these voices the book further explores ways teachers and teacher educators of language and intercultural communication can more deliberately leverage the affordance of peacebuilding whether face to face or in the virtual intercultural borderlands of online exchange
