### ABSTRACT

**Aims:** A school in which professional learning occurs among teachers is beneficial to both teachers and students. Professional learning is something teachers do, as they learn and share information and materials, and strive to improve student learning outcomes. Teachers are engaged in collaborative learning process through PL in order to develop their teaching skills and knowledge. Teacher collaboration has been acknowledged as critical in the teacher learning literature, but PL has been studied in a small number of research articles.

**Research Design:** This paper explores how teachers' PL of planned or unplanned events is viewed and experienced within school.

## **Teachers Perspectives On Continuing Professional Development:**

*Teachers' Perspectives on Continuing Professional Development* Matseliso Mokhele, 2014-11-12 There is a consensus that many continuing professional development programmes have yet to understand professional development from the teacher's perspectives. This perspective acknowledges what drives teachers to enlist in these programmes and how such programmes can make a difference to them and their classrooms. In this book I explore the teachers' opinions of the continuing professional development intervention, its meaning to them and their work and its impact on their classroom practices and students for the duration of the intervention and beyond. In conclusion I propose that continuing professional development, however well intentioned and executed, is received differently by each teacher as a result of their personal circumstances and investment in the programme. I argue that the greater the unity between the personal circumstances and motivations of the teachers and those of the continuing professional development intervention, the more likely the outcome will be meaningful for the participating teachers. In turn, the ability to sustain the benefits of the intervention will be enhanced. **Continuing**

**Professional Teacher Development in Sub-Saharan Africa** Yusuf Sayed, 2018-03-22 Continuing Professional Teacher Development in Sub-Saharan Africa explores the prospects that the on-going continuous professional development (CPD) of teachers working in schools offers for meaningful change, particularly towards improving the quality of educational provision for the majority of the continent's children. By reflecting on teacher professional development efforts and their place in broader education reforms, the book highlights the challenges of teacher CPD in these education contexts, contexts strongly shaped by endemic poverty, underdevelopment and social upheaval. The collection draws together examples of innovation and resilience and the valuing of teachers as critical role players, enabled and empowered through their on-going development as education professionals. Drawing together a wealth of experience, the volume identifies the policy and research implications for the future of CPD across the continent, providing important lessons that can be integrated into a post-2015 development agenda for Africa. **International Handbook On The Continuing Professional Development**

**Of Teachers** Day, Christopher, Sachs, Judyth, 2005-12-01 Christopher Day and Judyth Sachs have done a remarkable job of pulling together an outstanding collection of essays on professional development that reflect its stunning diversity in different regions around the world. *Collaboration as a Tool for Professional Development. The Perspectives of Secondary School Mathematics Teachers in Zambia* Maureen Sinyangwe, Yota Dimitriadi, 2021-09-14 Academic Paper from the year 2021 in the subject Pedagogy The Teacher Educational Leadership grade 1 00 University of Reading Institute of Education language English abstract This paper explores the reasons for the teachers reluctance to engage in the collaborative tasks and also the implications this has for collaboration as a tool for professional development There is increased attention on Continuing Professional Development of teachers for the purpose of improving the quality of teachers practices and improving pupils learning experiences and achievement and overall quality of education One important aspect of teachers CPD that is championed is collaboration CPD through collaboration can be considered as an intensive interaction that engages educators in opening up their beliefs and practices to investigation and debate Collaborative CPD can cover a number of activities ranging from working together with colleagues in informal unplanned ways to structured more formalized communities of inquiry or learning communities Among the potential benefits of Collaborative CPD are sharing knowledge understanding and experiences and enhancing reflective practices to support professional development One point is clear that teachers willingness to actively engage in or to collaborate for the purpose

of their professional development is crucial for collaborative CPD. While there are several benefits that come with collaborative CPD, some teachers in the Zambian context are reluctant to collaborate. Why would teachers be reluctant to collaborate?

**Teachers' Perspectives on Finnish School Education** Eduardo Andere M, 2013-12-11. This superbly researched study offers a chalk face perspective on the secret of Finland's educational success. Providing an intimate and revealing portrait of the Nordic nation's schools and its teacher training system, it sets out to explain why Finland's students consistently rank top with low variance and moderate inputs among OECD countries across the range of criteria from reading to mathematics. Alongside the detailed analysis culled from many hours of interviews with teachers and principals and dozens of visits to school throughout the country, the author maps the educational landscape of Finland: the sector's history, culture, and development; its guiding principles, methodologies, and learning environments. The result is a cogent assessment of how and why Finland is universally regarded as a high grade educational exemplar. The volume provides the hundreds of researchers, teaching professionals, and policy makers who visit Finland in search of inspiration with essential background material on the country's magic educational ingredients, which include a highly motivated cohort of well-trained teachers, a recognition of the vital importance of early years education and nurture, functional and inviting learning environments, and a rejection of pedagogical dogma in favour of developing methodologies that produce results at the same time as fostering students' confidence and collegiality. At the same age, Finland's schoolchildren have roughly one less year of formal schooling than most of their international counterparts, do not consider themselves to be overworked, and rank alongside hot-housed Singaporean or South Korean youngsters in international assessments of achievement. They are the educational equivalent of world-beating sports stars who make success appear effortless. This volume lifts the lid on the hard work and careful planning that underpin their achievements.

*Continuing Professional Development of TESOL Practitioners* Andrzej Cirocki, Raichle Farrelly, Heather Buchanan, 2023-11-27. This textbook serves as a current and comprehensive resource on effective Continuing Professional Development (CPD) for TESOL practitioners in various contexts around the world at various stages in their careers. The practices described by language teachers, teacher educators, and professional development providers in this book offer a vision of critical issues to consider when designing and evaluating professional development opportunities. Effective professional development requires careful planning informed by the realities of the local context and the specific needs of the teachers. This textbook is designed to support those who provide professional development opportunities by presenting global perspectives on professional development for a range of teaching contexts at different language levels. Each chapter includes a discussion about the type and source of support available in the given context, as well as a reflection on the challenges that exist for both teachers and CPD providers. These insights serve to help CPD designers and providers as they problematize teacher development opportunities in their context. Each chapter concludes with a synthesis of the strengths of CPD in the local context and a discussion of future directions that

target opportunities for transformation and improvement This volume celebrates teachers teacher educators and CPD providers around the world High impact practices are presented from fifteen countries Cameroon Canada Costa Rica Indonesia Kazakhstan Malta New Zealand Norway Oman Qatar South Africa South Korea Sri Lanka Tanzania and the United States of America Factors Affecting Teachers' Participation in Continuing Professional Development (CPD) Sally Wai-Yan Wan, Patrick Hak-Chung Lam, 2010 This paper presents the findings from a small scale case study of Hong Kong primary teachers perceptions of the factors affecting teachers participation in continuing professional development CPD The study applies a multiple approach with mixed research methods including using a self developed survey questionnaire on the basis of the CPD framework as proposed by Advisory Committee on Teacher Education and Qualifications ACTEQ 2003 and focus group interviews with two groups of teachers The study was conducted in two primary schools in order to explore teachers perceptions of the factors affecting teachers participation in continuing professional development CPD The implications of school based professional development and government policies related to CPD are discussed in the paper Contains 17 tables

Pixel,2018-03-19 **The Autonomy Paradox: Teachers' Perceptions of Self-Governance Across Europe** Wieland Wermke,Maija Salokangas,2021-03-24 What do we mean when we speak about teacher autonomy How free are teachers to go about their work To answer these complex questions the authors asked thousands of teachers in four national contexts in Finland Ireland Germany and Sweden what they think autonomy looks like The resulting book examines teacher autonomy theoretically and empirically comparing teachers perceptions of their professional autonomy Utilizing a mixed method approach the authors combine data from a large scale questionnaire study teacher interviews lesson and meeting observations and workshops that brought together teachers from the four participating countries All this engagement with teachers revealed that simply increasing their professional autonomy might not lead to desired outcomes This is because from a teachers point of view increased decision making capacity brings further complexity and risk to their work and it may instead lead to anxiety self restriction and the eventual rejection of autonomy These surprising conclusions challenge the increasingly orthodox view that increased autonomy is a desirable end in itself This is what the authors call the autonomy paradox *Inspiration and Innovation in Teaching and Teacher Education* Karen Goodnough,Gerald Galway,Cecile Badenhurst,Rob Kelly,2013-03-22 *Inspiration and Innovation in Teaching and Teacher Education* is an edited collection that offers a variety of conceptual and research based discussions on teaching and teacher education in Canada and internationally The ideas research and practices presented in the book focus on three broad themes the essence of teacher education innovative practices in teacher education and emerging issues in teacher education The book includes chapter contributions from a group of international scholars teacher educators and teachers who are adopting innovation in how they are conceptualizing teaching and teacher education and in how they are engaging in the practices of teaching and teacher education The contributions examine emerging issues that have far reaching implications for what we do in teacher education elucidating the successes opportunities and challenges inherent in teacher education The contributors to this book are inspiring others to examine their own beliefs and practices about what constitutes effective teacher education

*Classroom Practice and Teacher Cognition* Nicholas Bradley,2024-10-26 This collection occupies the middle ground between teachers showcasing their work and academics presenting research that is often situated in irreproducible uncommon or impractical classroom settings The work presented here is provided by full time university language educators who maintain a robust and active research agenda that focuses on their own classroom practice Whether one wishes to label it under action research exploratory practice reflective practice or other the findings of the research into their own practices

and educational contexts are accessible and will resonate strongly with both practicing teachers and academics investigating classroom practice and teacher cognition All articles are written with the aim of developing practice in a way that is recognisable to teachers and beneficial to their educational efforts Indeed recent literature calls for guidance to come from those actively engaged in classroom teaching and who apply sound research methods to the daily contexts lived by teachers and students
