Wobbe,Elisabeth A. Stoddard,2023-07-03 Published in association with This book has two goals First to show the value of significant project based work for first year undergraduate students and Second to share how to introduce this work into first year programs The authors spend the bulk of the book sharing what they have learned about this practice including details about the administrative support and logistics required They have also included sample syllabi assignments and assessments and classroom activities The projects are applicable in a liberal arts education in engineering programs in two and four year colleges in public and private universities any institution with first year undergraduate students that wants to actively engage them in understanding and solving real world problems through project work Evidence shows that project based learning with real world team based educational experiences increases the engagement and retention rate of underserved students Introducing project based learning in the first year can set the stage for incorporating the culture and practice of inclusive excellence as foundation for learning on college and university campuses   **Teaching through the Archives** Tarez Samra Graban,Wendy Hayden,2022-06-09 Disruptive pedagogies for archival research In a cultural moment when institutional repositories carry valuable secrets to the present and past this collection argues for the critical intellectual and social value of archival instruction Graban and Hayden and 37 other contributors examine how undergraduate and graduate courses in rhetoric history community literacy and professional writing can successfully engage students in archival research in its many forms and successfully model mutually beneficial relationships between archivists instructors and community organizations Combining new and established voices from related fields each of the book s three sections includes a range of form disrupting pedagogies Section I focuses on how approaching the archive primarily as text fosters habits of mind essential for creating and using archives for critiquing or inventing knowledge making practices and for being good stewards of private and public collections Section II argues for conducting archival projects as collaboration through experiential learning and for developing a preservationist consciousness through disciplined research Section III details praxis for revealing critiquing and intervening in historic racial omissions and gaps in the archives in which we all work Ultimately contributors explore archives as sites of activism while also raising important questions that persist in rhetoric and composition scholarship such as how to decolonize research methodologies how to conduct teaching and research that promote social justice and how to shift archival consciousness toward more engaged notions of democracy This collection highlights innovative classroom and curricular course models for teaching with and through the archives in rhetoric and composition and beyond   **Making Changes in STEM Education** Julia M. Williams,2023-06-02 Many science engineering technology and math STEM faculty wish to make an academic change at the course department college or university level but they lack the specific tools and

training that can help them achieve the changes they desire Making Changes in STEM Education The Change Maker s Toolkit is a practical guide based on academic change research and designed to equip STEM faculty and administrators with the skills necessary to accomplish their academic change goals Each tool is categorized by a dominant theme in change work such as opportunities for change strategic vision communication teamwork stakeholders and partnerships and is presented in context by the author herself a change leader in STEM In addition the author provides interviews with STEM faculty and leaders who are engaged in their own change projects offering additional insight into how the tools can be applied to a variety of educational contexts The book is ideal for STEM faculty who are working to change their courses curricula departments and campuses and STEM administrators who lead such change work to support their faculties as well as graduate students in STEM who plan to enter an academic position upon graduation and expect to work on academic change projects Download Episode 149 Julia Williams on how to be a changemaker in academia Podbean *AI and Humanity* Illah Reza Nourbakhsh,Jennifer Keating,2020-03-10 An examination of the implications for society of rapidly advancing artificial intelligence systems combining a humanities perspective with technical analysis includes exercises and discussion questions AI and Humanity provides an analytical framing and a common language for understanding the effects of technological advances in artificial intelligence on society Coauthored by a computer scientist and a scholar of literature and cultural studies it is unique in combining a humanities perspective with technical analysis using the tools of literary explication to examine the societal impact of AI systems It explores the historical development of these technologies moving from the apparently benign Roomba to the considerably more sinister semi autonomous weapon system Harpy The book is driven by an exploration of the cultural and etymological roots of a series of keywords relevant to both AI and society Works examined range from Narrative of the Life of Frederick Douglass given a close reading for its themes of literacy and agency to Simon Head s critique of the effects of surveillance and automation on the Amazon labor force in Mindless Originally developed as a textbook for an interdisciplinary humanities science course at Carnegie Mellon AI Humanity offers discussion questions exercises including journal writing and concept mapping and reading lists A companion website provides updated resources and a portal to a video archive of interviews with AI scientists sociologists literary theorists and others **Anthropology and Climate Change** Susan A. Crate,Mark Nuttall,2023-11-30 In this third edition of Anthropology and Climate Change Susan Crate and Mark Nuttall offer a collection of chapters that examine how anthropologists work on climate change issues with their collaborators both in academic research and practicing contexts and discuss new developments in contributions to policy and adaptation at different scales Building on the first edition s pioneering focus on anthropology s burgeoning contribution to climate change research policy and action as well as the second edition s focus on transformations and new directions for anthropological work on climate change this new edition reveals the extent to which anthropologists contributions are considered to be critical by climate scientists policymakers affected communities and other rights holders

Drawing on a range of ethnographic and policy issues this book highlights the work of anthropologists in the full range of contexts as scholars educators and practitioners from academic institutions to government bodies international science agencies and foundations working in interdisciplinary research teams and with community research partners The contributions to this new edition showcase important new academic research as well as applied and practicing approaches They emphasize human agency in the archaeological record the rapid development in the last decade of community based and community driven research and disaster research provide rich ethnographic insight into worldmaking practices interventions and collaborations and discuss how and in what ways anthropologists work in policy areas and engage with regional and global assessments This new edition is essential for established scholars and for students in anthropology and a range of other disciplines including environmental studies as well as for practitioners who engage with anthropological studies of climate change in their work **A Guide to Teaching in the Active Learning Classroom** Paul Baepler,J. D. Walker,D. Christopher Brooks,Kem Saichaie,Christina I. Petersen,2023-07-03 While Active Learning Classrooms or ALCs offer rich new environments for learning they present many new challenges to faculty because among other things they eliminate the room s central focal point and disrupt the conventional seating plan to which faculty and students have become accustomed The importance of learning how to use these classrooms well and to capitalize on their special features is paramount The potential they represent can be realized only when they facilitate improved learning outcomes and engage students in the learning process in a manner different from traditional classrooms and lecture halls This book provides an introduction to ALCs briefly covering their history and then synthesizing the research on these spaces to provide faculty with empirically based practical guidance on how to use these unfamiliar spaces effectively Among the questions this book addresses are How can instructors mitigate the apparent lack of a central focal point in the space What types of learning activities work well in the ALCs and take advantage of the affordances of the room How can teachers address familiar classroom management challenges in these unfamiliar spaces If assessment and rapid feedback are critical in active learning how do they work in a room filled with circular tables and no central focus point How do instructors balance group learning with the needs of the larger class How can students be held accountable when many will necessarily have their backs facing the instructor How can instructors evaluate the effectiveness of their teaching in these spaces This book is intended for faculty preparing to teach in or already working in this new classroom environment for administrators planning to create ALCs or experimenting with provisionally designed rooms and for faculty developers helping teachers transition to using these new spaces **The Game Writing Guide** Anna Megill,2023-05-22 This comprehensive guide walks readers through the entire process of getting and keeping a writing job in the games industry It outlines exactly what a beginner needs to know about education requirements finding opportunities applying for roles and acing studio interviews Professional writers will learn how to navigate studio hierarchies transfer roles and companies work overseas and keep developing their careers

Written by an experienced games writer with nearly two decades of industry knowledge this book contains a wealth of interviews and perspectives with industry leaders hiring managers and developers from marginalized communities all offering their tips and insights Included are examples of materials such as job posts writing samples and portfolios as well as chapter end challenges for readers to directly apply the skills they have learnt This book will be of great interest to all beginner and aspiring games writers and narrative designers as well as more experienced writers looking to hone their skills
