Work Gillian Shotton, 2020-10-12 Life story work is a term often used to describe an approach that helps looked after and adopted children to talk and learn about their life experiences with the help of a trusted adult This book is an essential step by step guide for carers and professionals seeking to carry out life story work with a traumatised or vulnerable child in their care Underpinned by positive psychology and drawing on up to date research and real life practice the book offers a sound theoretical understanding of life story work as well as a practical and easy to use programme of sessions Each session covers the equipment and information needed a consideration of who is best placed to carry out the work and answers to commonly raised questions Also discussed are age appropriate approaches and ideas for extending each session into other activities and methods to make it more feasible for life story work to be a shared activity between two or three adults who know the child well This book gives professionals and carers the confidence to carry out life story work in a way that is sensitive to the child's needs and positive for their self perception and relationships *Retelling the Stories of Our Lives* David

Denborough, 2014-01-06 Powerful ideas from narrative therapy can teach us how to create new life stories and promote change Our lives and their pathways are not fixed in stone instead they are shaped by story The ways in which we understand and share the stories of our lives therefore make all the difference If we tell stories that emphasize only desolation then we become weaker If we tell our stories in ways that make us stronger we can soothe our losses and ease our sorrows Learning how to re envision the stories we tell about ourselves can make an enormous difference in the ways we live our lives Drawing on wisdoms from the field of narrative therapy this book is designed to help people rewrite and retell the

stories of their lives The book invites readers to take a new look at their own stories and to find significance in events often neglected to find sparkling actions that are often discounted and to find solutions to problems and predicaments in unexpected places Readers are introduced to key ideas of narrative practice like the externalizing problems the person is not the problem the problem is the problem and the concept of re membering one s life Easy to understand examples and exercises demonstrate how these ideas have helped many people overcome intense hardship and will help readers make these techniques their own The book also outlines practical strategies for reclaiming and celebrating one s experience in the face of specific challenges such as trauma abuse personal failure grief and aging Filled with relatable examples useful exercises and informative illustrations Retelling the Stories of Our Lives leads readers on a path to reclaim their past and re envision their future

Unaccompanied Young Migrants Sue Clayton,Anna Gupta,Katie Willis,2019-01-30 Taking a multi disciplinary perspective and one grounded in human rights Unaccompanied young migrants explores in depth the journeys migrant youths take through the UK legal and care systems Arriving with little agency what becomes of these children as they grow and assume new roles and identities only to risk losing legal protection as they reach eighteen Through international studies and crucially the voices of the young migrants themselves the book examines the narratives they present and the frameworks of culture and legislation into which they are placed It challenges existing policy and questions from a social justice perspective what the treatment of this group tells us about our systems and the cultural presuppositions on which they depend

Story Re-Visions Alan Parry, Robert E. Doan, 1994-09-09 Once upon a time everything was understood through stories The philosopher Friedrich Nietzsche once said that if we possess our why of life we can put up with almost any how Stories always dealt with the why questions The answers they gave did not have to be literally true they only had to satisfy people's curiosity by providing an answer less for the mind than for the soul From Chapter 1 Each of us has a story to tell that is uniquely personal and profoundly meaningful

The goal of the modern therapist is to help clients probe deeply enough to find their own voice describe their experiences and create a narrative in which a life story takes shape and makes sense Emphasizing the vital connections among personal experience family and community the authors of this provocative new book explore the role of narrative therapy within the context of a postmodern culture They employ the interactional dynamics of family therapy to demonstrate how to help people deconstruct oppressive and debilitating perspectives replace them with liberating and legitimizing stories and develop a framework of meaning and direction for more intentional more fulfilling lives Blending scientific theory with literary aesthetics *Story Re Visions* presents a comprehensive collection of specific narrative therapy techniques inventions interviewing guidelines and therapeutic questions The book examines the development of the postmodern phenomenon tracing its evolution across time and disciplines It discusses paradigmatic traditions the meaning of modernism and the ways in which the ancient binding narratives have lost their power to inspire uncritical assent Methods for doing narrative therapy in a destoried world are presented with suggestions for meeting the challenges of postmodern value systems and ethical dilemmas Numerous case examples and dialogues illustrate ways to help people become authors of their own stories and each of the last four chapters concludes with an appendix that provides additional information for the practicing clinician Detailing ways in which a narrative framework enhances family therapy the authors describe how the therapist and client may act together as revisionary editors and present techniques for keeping the story re vision alive well and in charge Finally the book examines re vision techniques for clinical training and supervision settings with discussion of how therapists may help one another create stories about their clients as well as themselves Accessibly written and profoundly enlightening *Story Re Visions* is ideal for family therapists psychologists psychiatrists and anyone else interested in doing therapy from a narrative stance It is also valuable as supplemental reading for courses in family therapy and other psychotherapeutic disciplines

The Sealed Box of Suicide Colin Tatz, Simon Tatz, 2019-09-23 This unique book explores suicide as more than just a manner of death It challenges the myths beliefs dogma and customs of suicide from the earliest theories It offers fresh insights into dark spaces World wide suicide deaths are three times greater than homicides and are increasing Current approaches to stem this epidemic are not working or have very limited success Mental health interventions theories about a suicide or a depression gene and the ever increasing dispensing of antidepressants have not lessened the stark statistics The authors attempt to understand the soul of the suicide addressing the social economic political historical geographic and cultural contexts in which suicide occurs The social order is indelibly connected to settings places circumstances relationships occupations climate and milieus Most of the 36 diverse categories of self motivated deaths defy a one size fits all approach Recognising contexts and looking outside the confines that have imprisoned thinking about suicide could well be more effective in alleviating or mitigating suicide than years searching for a possible vaccination against such death The book is an appeal to move beyond the medical model of suicide Written in a very accessible style it is of interest to social

Weatherhead, 2018-03-21 This book brings together narrative approaches and brain injury rehabilitation in a manner that
fosters an understanding of the natural fit between the two We live our lives by narratives and stories and brain injury can
affect those narratives at many levels with far reaching effects Understanding held narratives is as important as
understanding the functional profile of the injury This book explores ways to create a space for personal stories to emerge
and change whilst balancing theory with practical application Despite the emphasis of this book on the compatibility of
narrative approaches to supporting people following brain injury it also illustrates the potential for contributing to significant
change in the current narratives of brain injury This book takes a philosophically different approach to many current neuro
rehabilitation topics and has the potential to make a big impact It also challenges the reader to question their own position
but does so in an engaging manner which makes it difficult to put down Narrative and Dramatic Approaches to Children's
Life Story with Foster, Adoptive and Kinship Families Joan E. Moore, 2019-12-06 Narrative and Dramatic Approaches to
Children s Life Story with Foster Adoptive and Kinship Families outlines narrative and dramatic approaches to improve
vulnerable family relationships It provides a model which offers new ways for parents to practise communicating with their
children and develop positive relationships The book focuses on the Theatre of Attachment model a highly innovative
approach which draws from a strong theoretical base to demonstrate the importance of narrative and dramatic play for
sharing the children s life history in the family home with their adoptive foster or kinship parents An emphasis is on having
fun ways to work through complex feelings and divided loyalties so as to secure attachment This practice model aims to raise
children s self esteem and communication skills and to combat the profound effects of abuse neglect on trauma on children s
development This book will be of great interest for academics post graduate students universities and Training bodies service
providers and practitioners involved in social work and creative therapies child psychologists child psychotherapists and
public and private adoption and foster care agencies
