Crimm, 2016-04-15 In recent years a conservative majority of the U S Supreme Court over vigorous dissents has developed circumventions to the Establishment Clause of the First Amendment that allow state legislatures unabashedly to use public tax dollars increasingly to aid private elementary and secondary education This expansive and innovative legislation provides considerable governmental funds to support parochial schools and other religiously affiliated education providers That political response to the perceived declining quality of traditional public schools and the vigorous school choice movement for alternative educational opportunities provokes passionate constitutional controversy Yet the Court s recent decision in Arizona Christian School Tuition Organization v Winn inappropriately denies taxpayers recourse to challenge these proliferating tax funding schemes in federal courts Professors Winer and Crimm clearly elucidate the complex and controversial policy legal and constitutional issues involved in using tax expenditures mechanisms such as exclusions deductions and credits that economically function as government subsidies to finance private religious schooling The authors argue that legislatures must take great care in structuring such programs and set forth various proposals to ameliorate the highly troubling dissention and divisiveness generated by state aid for religious education **Building the Federal**

Schoolhouse Douglas S. Reed, 2014-06-26 Over the past fifty years the federal government s efforts to reform American public education have transformed U S schools from locally run enterprises into complex systems jointly constructed by federal state and local actors The construction of this federal schoolhouse an educational system with common national expectations and practices has fundamentally altered both education politics and the norms governing educational policy at the local level Building the Federal Schoolhouse examines these issues through an in depth fifty year examination of federal educational policies in the community of Alexandria Virginia a wealthy yet socially diverse suburb of Washington D C The epochal social transformations that swept through America in the past half century hit Alexandria with particular force transforming its Jim Crow school system into a new immigrant gateway district within two generations Along the way the school system has struggled to provide quality education for special needs students and has sought to overcome the legacies of tracking and segregated learning while simultaneously retaining upper middle class students Most recently it has grappled with state and federally imposed accountability measures that seek to boost educational outcomes All of these policy initiatives have contended with the existing political regime within Alexandria at times forcing it to a breaking point and at other times reconstructing it All the while the local expectations and governing realities of administrators parents politicians and voters have sharply constrained federal initiatives limiting their scope when in conflict with local commitments and amplifying them when they align Through an extensive use of local archives contemporary accounts school data and interviews Douglas S Reed not only paints an intimate portrait of the conflicts that the federal schoolhouse s creation has

wrought in Alexandria but also documents the successes of the federal commitment to greater educational opportunity In so doing he highlights the complexity of the American education state and the centrality of local regimes and local historical context to federal educational reform efforts

A Political Education Elizabeth Todd-Breland, 2018-10-03 In 2012 Chicago's school year began with the city's first teachers strike in a quarter century and ended with the largest mass closure of public schools in U S history On one side a union leader and veteran black woman educator drew upon organizing strategies from black and Latinx communities to demand increased school resources On the other side the mayor backed by the Obama administration argued that only corporate style education reform could set the struggling school system aright The stark

differences in positions resonated nationally challenging the long standing alliance between teachers unions and the Democratic Party Elizabeth Todd Breland recovers the hidden history underlying this battle She tells the story of black education reformers community based strategies to improve education beginning during the 1960s as support for desegregation transformed into community control experimental schooling models that pre dated charter schools and black teachers challenges to a newly assertive teachers union This book reveals how these strategies collided with the burgeoning neoliberal educational apparatus during the late twentieth century laying bare ruptures and enduring tensions between the politics of black achievement urban inequality and U S democracy **Leverage Leadership 2.0** Paul
