

The Texas A&M University

5 pages | 1150 words

The event that I attended was the Texas A&M University vs Northwestern State on Thursday, August 30th at 7:30 PM. I watched the game at a friend's apartment. The game was sponsored by Texas A&M, and ultimately the purpose of the football game is profit. However, side benefits that Texas A&M probably appreciates include fostering school spirit, allowing a wholesome space for students to vent their aggression, and a university wide socialization event. Game night fosters diversity through the presence of an event where the whole school can come together. An idea often used in movies to bring diverse groups together is to provide a common enemy, and the opposing team provides a convenient point of opposition. Game night provides a very convenient setting for friend groups to come together. When a number of people come together their behavior changes by virtue of simply being in a group. This group behavior can often be explained by group processes. Group processes are expressed when people come together and form their own values and a sense of community. Aggies are one such group and game nights allow for a backdrop to see how this sense of values and community colors A&M behavior might deviate from the norm. Texas A&M loves football. To some that is a statement of fact. An entire section of the student body, the Corps, travels to every away game, and various alumni come to seemingly every home football game. Gameday effectively shuts down College Station, whether it is due to traffic, or large portions of the population watching the game in some way or form College Station transformed seemingly overnight. There was an influx of parents and older alumni driving to college station and clogging up Highway Six and the streets of Texas and University on the first game day of the year. Some schools love football, and some schools also shutdown for gameday, but for Aggies football is almost a religion. That is the feeling you get on game day, but on a normal day of campus you'd be hard pressed to find any sign of this obsession. Sure, it comes up during side conversations, but you don't see any signs of fanaticism walking from the MSC to classes. Actually it's much more common to see a row of banners advertising FLOs or clubs than to see Aggie sports banners on any given day. Gameday acts as seemingly another "holy" day in Texas A&M, albeit one that doesn't leave a lasting impression on the weekday. Game nights provide a nationwide view of A&M to anyone who happens to be watching that particular game. In the Northwestern State game, there were often sky views of the stadium and subsequent camera zooms into the crowd. The camera overviews of the 12th man after touchdowns or big plays provided an almost ideal image of Aggies to the nation. The view showed members of the corps dressed up in their uniforms hands on each others shoulders moving to the Aggie fight song. This is a display of camaraderie commonly seen during the game, but very rarely do strangers come into such close...

Deadly Documents Mark Ward,2016-12-05 Scholars teachers and practitioners of organizational professional and technical communication and rhetoric are target audiences for a new book that reaches across those disciplines to explore the dynamics of the Holocaust More than a history the book uses the extreme case of the Final Solution to illumine the communicative constitution of organizations and to break new ground on destructive organizational communication and ethics Deadly Documents Technical Communication Organizational Discourse and the Holocaust Lessons from the Rhetorical Work of Everyday Texts starts with a microcosmic look at a single Nazi bureau Through close rhetorical visual and discursive analyses of organizational and technical documents produced by the SS Security Police Technical Matters Group the bureau that managed the Nazi mobile gas van program author Mark Ward shows how everyday texts functioned as boundary objects on which competing organizational interests could project their own interpretations and temporarily negotiate consensus for their parts in the Final Solution The initial chapters of Deadly Documents provide a historical ethnography of the SS technical bureau by closely describing the institutional and organizational cultures in which it operated and relating organizational stories told in postwar testimony by the desk murderers themselves Then through examination of the primary material of their documents Ward demonstrates how this Social Darwinist world of competing Nazi bureaucrats deployed rhetorical and linguistic resources to construct a social reality that normalized genocide Ward goes beyond the usual Weberian bureaucratic paradigm and applies to the problem of the Holocaust both the interpretive view that sees organizations as socially constructed through communication and the postmodern view that denies the notion of a preexisting social object called an organization and instead situates it within larger discourses The concluding chapters trace how contemporary scholars of professional communication have wrestled with the Nazi case and developed a consensus explanation that the desk murderers were amoral technocrats Though the explanation is dismissed by most historians it nevertheless offers Ward argues a comforting distance between us and them Yet as Ward writes First we will learn more about the dynamic role of everyday texts in organizational processes Second as we see these processes perhaps inherent to

all organized communities including our own at work even in the extreme case of the SS Technical Matters Group the comforting distance that we now maintain between them and us is necessarily diminished And third our newfound discomfort may open productive spaces to revisit conventional wisdoms about the ethics of technical and organizational communication
