Long form scenic improv began with the Harold. The comic philosophy of this form started an era of comedy marked by support, trust, and collaboration. This book tells of the Harold beginning with the development of improv theatre through the tensions and evolutions that led to its creation at iO and to its use in contemporary filmmaking. **The Human Touch** Chloé Arros, 2024-09-27. The Human Touch is a book focused on the creative processes at work in British contemporary improvisational theatre and how these processes draw on the humanity of the participants, their cognitive abilities, their lives, and their relationships to each other. Vulnerability is a main feature of both the book and of improvisational theatre, both part of the hurdles that improvisers face and a creative tool. Through a study of improvisation and vulnerability, the book teaches us both what makes improvisational theatre so human and opens the door to a reflection about how to use humanity and human emotions in performance. Most importantly, it delves into the cognitive and physiological processes at work in improvisation, a topic which is missing from most manuals and studies offered to students. This book is addressed to theatre students and provides both an important overview of the form's history and a challenge to what is usually taught about improvisation.
