Corrosion Inhibitors, Principles and Recent Applications Mahmood Aliofkhazraei, 2018-04-04 To protect metals or alloys from corrosion some methods can be used such as isolating the structure from the aggressive media or compensating the loss of electrons from the corroded structure The use of corrosion inhibitors may include organic and inorganic compounds that adsorb on the metallic structure to isolate it from its surrounding media to decrease oxidation reduction processes This book collects new developments about corrosion inhibitors and their recent applications

Feeling lives:

An intersectional exploration of past experiences and present living Lindsay Clowes, LJ Theo, Nadia Sanger, Landa Mabenge, Sisa Ngabaza, 2023-11-15 We each make sense of the world through our embodied feeling lives We do it through the social groupings contexts and processes which history rather than biology presents and assigns to us In this collection we aim to illustrate how these embodied feelings and emotions underpin contemporary theorising by sharing reflective autobiographical writing by individuals from a wide range of backgrounds and contexts This somewhat unruly collection unsettles conventional academic writing precisely because authors have grounded themselves in the tangible and the personal rather than in abstract theory We hope that readers might see aspects of their own lives in some of these stories develop better understandings of lives that are experienced very differently and start or continue to theorise their own lives
