Everything you need to know when carrying a child.** O.Nashchubskiy, There is nothing more magical in this world than the moment when life begins its new story This is the moment when a small miracle awakens in the arms of mother and father and the whole world reveals its miracles in new colors Like the pages of a magic book the life of a pregnant woman is filled with mysteries and surprises Every moment is a chapter every movement is an art and the beating of a small heart is a magic that cannot be described in words This book is the key to this magical book of life She invites you on a journey full of mystery and wonder into a world where the smallest touches become the most important This is a journey into the world of motherhood and fatherhood where every day is a new chapter every minute is an encounter with magic Here you will find stories about how dreams and hopes are born about how love and happiness are born This book is a colorful picture of life where every color every note is part of this magical symphony Let s open the first page of this magical book together and go on an incredible journey where every moment is filled with the magic of a New Life In this world where every step leads to a new beginning and every beginning carries with it the eternal circle of life conceiving a child is one of the most magical and mysterious moments It is like a quiet whisper of nature a promise of new life gently emerging in the secret depths of existence This act of creating new life is the moment when love transcends the

visible and becomes a force that can change the world Conceiving a child is not just a biological process it is an act of love and hope This is the moment when two hearts work together to create a miracle giving the world a new soul This is the beginning of a journey full of excitement joy sometimes fear and uncertainty but always full of love And then comes the moment of birth a solemn and magical event when new life meets the light for the first time This is the moment when time stops and the entire universe seems concentrated in this small creature that lies so helplessly in the arms of its mother The birth of a child is the fulfillment of the meaning of life the embodiment of love and hope that were inherent at the moment of conception With this event comes a new responsibility responsibility for a new life for this little miracle which now depends on its parents This is a responsibility not only for the physical well being of the child but also for his emotional and spiritual development Parents become the first teachers the first mentors and the first support in this world for their child And of course with the birth of a child comes incredible love love that knows no boundaries knows no fatigue and knows no fear This is love that is stronger than anything in the world love that is capable of the greatest sacrifices and deeds This is love that stays with parents for life grows and develops with the child Conceiving and giving birth to a child are not just natural stages of life they are sacred acts full of deep meaning and grandeur They remind us of the miracle of life the power of love and how important it is to cherish every moment spent with our children This is a journey that changes us makes us better wiser and happier In a world where every breath and every step carries the invisible magic of the beginning the psychological education of a child starting from the moment of conception and especially in the first year of life is one of the most significant and subtle threads with which we adults weave the fabric of the future From the moment of conception when new life barely begins to pulsate in the womb it already absorbs the essence of the surrounding world through the senses of the mother The emotional state thoughts sensations of the mother become the first colors with which she perhaps unknown paints the first images in the mind of her child Love calm and harmony surrounding the mother become the basis for the development of a sense of security in the child When a baby is born his psychological development takes on a new round Every touch every look every word of the parents is imprinted in the child's tender memory forming his ideas about the world about himself and about those who surround him In the first year of life when the baby cannot yet speak he actively learns to understand the world through emotions and tactile sensations This is the time when the foundation of trust in the world is laid through the warmth of hands the tenderness of hugs and the confidence that parents are always there Mom's smile dad's gentle voice their calmness and confidence are transmitted to the baby giving him a feeling of security and anticipation of good things The importance of psychological education during this period cannot be overestimated This is the time when the foundations of self esteem adaptability and first social skills are laid Parents are the first teachers and mentors through whom the child learns to understand himself and others learns to feel and express his emotions The love and attention respect and understanding that a child receives in the first year of his life become the cornerstone of his psychological health

and well being for the rest of his life This is the foundation on which all his future relationships his self confidence and his ability to face difficulties will be built Thus psychological education begins long before the first word the first step it begins with the first heartbeat in the womb and continues with every moment of the first year of life It is a mysterious and majestic task to fill this world with love raising a new soul that will one day make it a better place First Time Dad Ged Fraley, Becoming a dad for the first time doesn't come with an instruction manual until now Do you ever worry that you'll make rookie mistakes miss crucial moments or not know how to truly support your partner when it matters most First Time Dad is your practical confidence boosting guide to fatherhood Packed with expert advice real world strategies and easy to follow steps this book helps you step into your role as a strong supportive partner and capable dad without the overwhelm Inside you'll discover how to Navigate the emotional and financial transition into parenthood with clarity and calm Support your partner physically mentally and emotionally through pregnancy birth and postpartum recovery Master essential newborn care from feeding and diapering to recognizing health signals Stay connected in your relationship while sharing responsibilities and avoiding burnout Bond deeply with your baby and build a strong foundation for lifelong family connection You don't need to figure everything out the hard way With this book as your guide you'll feel prepared capable and confident every step of the journey turning uncertainty into excitement and stress into strength Step into fatherhood fully prepared get your copy today and start building the family life you've always dreamed of *The Mama Natural Week-by-Week Guide to Pregnancy and Childbirth* Genevieve Howland, 2017-04-25 With more than 13 million video views each month and over fifty two million total views on her YouTube channel Howland's aka Mama Natural funny but informational videos have empowered millions of women to embrace natural pregnancy and parenting Now Howland is turning to the page offering up the first week by week natural pregnancy book for soon to be moms For the last half century control over childbirth has been in favor of doctors Many pregnancy guidebooks are conventional fear based and written by male physicians deeply entrenched in the old school medical model of birth But change is underway A groundswell of women are taking back their pregnancy and childbirth and embracing a natural way Genevieve Howland the woman behind the enormously popular Mama Natural blog and YouTube channel has created an inspiring fun and informative guide that demystifies natural pregnancy and walks mom through the process one week at a time The Mama Natural's Week by Week Guide to Pregnancy and Childbirth is the modern and yet ancient approach to pregnancy and childbirth Natural recognizes that pregnancy and birth are normal and that having a baby is a wondrous biological process and rite of passage not a medical condition This book draws upon the latest research showing how beneficial and life changing natural birth is for both babies and moms Full of weekly advice and tips for a healthy pregnancy Howland details vital nutrition to take natural remedies for common and troublesome symptoms as well as the appropriate and inappropriate use of interventions Peppered throughout are positive birth and pregnancy stories from women of all backgrounds and all stages of their natural journey along with advice and
