## **Tunisian Revolutions Reflections On Seas Coasts And Interiors:**

*Tunisian Revolutions* Julia Clancy-Smith, 2014-11-21 In December 2010 an out of work Tunisian street vendor Mohamed Bouazizi set himself on fire and precipitated the Arab Spring Popular interpretations of Bouazizi's self immolation presented economic and political oppression by the Ben Ali regimes as the root causes of widespread social despair that triggered the Tunisian revolution Yet as Julia Clancy Smith points out Tunisia's long history of organized political activism and protest movements suggests a far more complicated set of processes Proposing a conceptual framework of coastalization vs interiorization Clancy Smith examines Tunisia's last two centuries and demonstrates how geographical and environmental and social factors also lie behind that country's modern political history Within this framework Clancy Smith explores how Tunisia's coast became a Mediterranean playground for transnational elites a mecca of tourism while its interior agrarian regions suffered increasing neglect and marginalization This distinction has had a profound impact on the fate of Tunisia and has manifested itself in divisive debates over politics the state and religion as well as women's socio legal status that have led to a series of mass civic actions culminating in revolution Clancy Smith proposes a fresh historical lens through which to view the relationship between spacial displacements regionalization and transnationalism Georgetown Shorts longer than an article shorter than a book deliver timely works of peer reviewed scholarship in a fast paced agile environment They present new ideas and original texts that are easily and widely available to students scholars libraries and general readers

*Understanding Revolutions* Azmi Bishara, 2021-12-30 Based on empirical and theoretical investigation and original insight into how a local protest movement developed into a revolution that changed a regime this book shows us how we can understand political revolutions Azmi Bishara critically explores the gradual democratic reform and peaceful transfer of power in the context of Tunisia He grapples with the specific make up of Tunisia as a modern state and its republican political heritage and investigates how this determined the development and survival of the revolution and the democratic transition in its aftermath For Bishara the political culture and attitudes of the elites and their readiness to compromise in addition to an army without political ambitions were aspects that proved crucial for the relative success of the Tunisian experience But he distinguishes between protest movements and mass movements that aim at regime change and discerns the social and political conditions required for the transition from the former to the latter Bishara shows that the specific factors that correspond to mass movements and regime change are relative deprivation awareness of injustice dignity and indignation He concludes based on meticulous documentation of the events in Tunisia and theoretical investigation that while revolutions are unpredictable with no single theory able to explain them all revolutions across different historical and conceptual contexts be seen as popular uprisings that aim at regime change The book is the first of a trilogy the *Understanding Revolutions* series by Bishara seeking to provide a rich comprehensive and lucid assessment of the revolutions in three states Tunisia Syria and Egypt [The Elgar Companion to Post-Conflict Transition](#) Hans-Joachim

Giessmann, Roger Mac Ginty, Beatrix Austin, Christine Seifert, 2018-08-31 What are the main drivers of political transition and regime change And to what extent do these apparently seismic political changes result in real change These questions are the focus of this comparative study written by a mix of scholars and practitioners This state of the art volume identifies patterns in political transitions but is largely unconvinced that these transitions bring about real change to the underlying structures of society Patriarchy land tenure and economic systems often remain immune to change despite the headlines

Al-'Arabiyya Karin C. Ryding, 2015-11-16 Al Arabiyya is the annual journal of the American Association of Teachers of Arabic and serves scholars in the United States and abroad Al Arabiyya includes scholarly articles and reviews that advance the study research and teaching of Arabic language linguistics literature and pedagogy Becoming the 'Abid Marta Scaglioni, 2020-09-14 In 2011 after the popular uprising overthrew former President Zine el Abidine Ben Ali in Tunisia several issues came to the fore among them racism targeting black individuals Few black rights associations emerged and their struggle culminated in the promulgation of a law punishing racist acts and words in October 2019 The step is historical and stems from Tunisia's foreseeing policy concerning human and civil rights In 1846 Tunisia was the first country to abolish slavery and the slave trade in the Ottoman Empire and in the Middle Eastern world Becoming the Abid addresses the issue of the legacy of slavery in a southern Tunisian governorate where racism towards black individuals is still a painful experience and takes the form of professional educational and marital discrimination Referring to the concept of structural inequality the book goes beyond the simplistic idea that race is only related to phenotype taking distance from the Western racial concepts and highlights how processes of racialization are contextual processual and changing constructions *A Fledgling Democracy* Mohamed Zayani, 2022-12-15 In the tumultuous aftermath of the Arab uprisings Tunisia charted a unique path that has earned it praise as a beacon of hope in a troubled region Since the 2011 revolution it has embraced a new culture of democracy based on pluralism civilian rule and the peaceful transfer of power Equally noteworthy are the country's burgeoning civil society its various institutional reforms and its progressive new constitution which upholds individual freedoms and champions women's rights But in spite of these achievements daunting challenges remain Although Tunisia has succeeded in defusing many crises its transition has been uneasy its democracy is fragile and its future continues to be uncertain As the country emerges from decades of authoritarian rule it faces enormous political social economic and security challenges which are undermining its peaceful evolution It is this state of fragility that *A Fledgling Democracy* seeks to capture Focusing on the socio political dynamics that have unfolded in this North African nation since the revolution the contributors to this volume shed light on how Tunisia has navigated its first decade of democratic transition and reflect on what the ongoing changes and challenges mean for the country today **The Arab Spring** Mark L. Haas, 2018-05-04 Beginning in late 2010 peaceful protests against entrenched regimes unexpectedly erupted in a number of Arab countries causing political upheaval across the region Through contributions from noted scholars The Arab Spring provides a

comprehensive overview of the causes key issues and aftermath of these events Divided into two parts the book first examines the Arab countries most dramatically impacted by the uprisings as well as why some of their Arab neighbors avoided large scale protests The second part explores other countries inside and outside the region that have a stake and interest in the uprisings The second edition includes a new chapter on Iraq and coverage of developments in the region since 2012 and how they have altered initial assessments of the Arab Spring s effects New part introductions and a revised concluding chapter provide contextualization and comparative analyses of key themes and broader questions This is an essential volume for students and scholars seeking the fullest understanding of how the Arab uprisings continue to impact the region and the world

**Mediterranean Diasporas** Maurizio Isabella, Konstantina Zanou, 2015-11-19 Mediterranean Diasporas looks at the relationship between displacement and the circulation of ideas within and from the Mediterranean basin in the long 19th century In bringing together leading historians working on Southern Europe the Balkans and the Ottoman Empire for the first time it builds bridges across national historiographies raises a number of comparative questions and unveils unexplored intellectual connections and ideological formulations The book shows that in the so called age of nationalism the idea of the nation state was by no means dominant as displaced intellectuals and migrant communities developed notions of double national affiliations imperial patriotism and liberal imperialism By adopting the Mediterranean as a framework of analysis the collection offers a fresh contribution to the growing field of transnational and global intellectual history revising the genealogy of 19th century nationalism and liberalism and reveals new perspectives on the intellectual dynamics of the age of revolutions

*Libya's Displacement Crisis* Megan Bradley, Ibrahim Fraihat, Houda Mzioudet, 2016-01-04 Libya faces a bleak humanitarian crisis the result of the country s descent into civil war in the summer of 2014 following the 2011 revolution Hundreds of thousands of Libyan citizens are uprooted within the country and many more are sheltering in neighboring states particularly Tunisia Drawing on in depth interviews with policymakers practitioners and displaced Libyans both inside and outside the country Megan Bradley Ibrahim Fraihat and Houda Mzioudet present a brief yet thoroughly illuminating assessment of the political socioeconomic security humanitarian and human rights implications of the continued displacement of Libyan citizens within and outside their country Assessing the complex dimensions and consequences of the situation Libya s Displacement Crisis lays the groundwork for what comes next Acknowledging that the resolution of this crisis hinges on a negotiated end to the Libyan civil war the authors present ideas to improve assistance strategies and to support durable solutions for displaced Libyans with implications for refugee crises in other parts of the world including Syria and Iraq

Demography and Democracy Elhum Haghighat, 2018-08-23 Examines the demographic shifts in the Middle East and North Africa placing them in their social

political and economic contexts      **Recording History** Christopher Silver, 2022-06-28 A new history of twentieth century North Africa that gives voice to the musicians who defined an era and the vibrant recording industry that carried their popular sounds from the colonial period through decolonization If twentieth century stories of Jews and Muslims in North Africa are usually told separately Recording History demonstrates that we have not been listening to what brought these communities together Arab music For decades thousands of phonograph records flowed across North African borders The sounds embedded in their grooves were shaped in large part by Jewish musicians who gave voice to a changing world around them Their popular songs broadcast on radio performed in concert and circulated on disc carried with them the power to delight audiences stir national sentiments and frustrate French colonial authorities With this book Christopher Silver provides the first history of the music scene and recording industry across Morocco Algeria and Tunisia and offers striking insights into Jewish Muslim relations through the rhythms that animated them He traces the path of hit makers and their hit records illuminating regional and transnational connections In asking what North Africa once sounded like Silver recovers a world of many voices of pioneering impresarios daring female stars cantors turned composers witnesses and survivors of war and national and nationalist icons whose music still resonates well into our present      *Muslim Democracy* Edward Schneier, 2015-10-23 Muslim Democracy explores the relationship between politics and religion in forty seven Muslim majority countries focusing especially on those with democratic experience such as Indonesia and Turkey and drawing comparisons with their regional non Islamic counterparts Unlike most studies of political Islam this is a politically focused book more concerned with governing realities than ideology By changing the terms of the debate from theology to politics and including the full complement of Islamic countries Schneier shows that the boundaries between church and state in the Islamic world are more variable and diverse than is commonly assumed Through case studies and statistical comparisons between Muslim majority countries and their regional counterparts Muslim Democracy shows that countries with different religions but similar histories are not markedly different in their levels of democratization What many Islamists and western observers call Islamic law moreover is more a political than a religious construct with religion more the tool than the engine of politics Women who drive in Saudi Arabia as the author says are not warned they will go to hell but that they will go to jail With the political salience of religion rising in many countries this book is essential reading for students of comparative politics religion and democratization interested in exploring the shifting boundaries between faith and politics      536 25-05-2024,      Devenir visibles dans le sillage de l'esclavage : Emmanuel Martinoli, Sébastien Boulay, 2020-08-25 Les textes de ce num ro double analysent l'volution de la condition socio conomique des haratin en Mauritanie et au Maroc et de leur place dans la soci t Ils clarent les strat gies contemporaines des haratin groupe dont les auteurs n h sitent pas souligner l h t rog n it pour faire reconna tre leur citoyennet au m me titre que d autres groupes qui r clament aujourd hui une vraie place sociale quitte remettre en cause les textes du fiqh mal kite qui sont

**Tunisia's International Relations since the 'Arab Spring'** Tasnim Abderrahim, Laura-Theresa Krüger, Salma Besbes, Katharina McLarren, 2017-09-22 When popular protests started in Tunisia in late 2010 few anticipated the implications these events would have for the entire Arab region In the following years this region witnessed deep changes increased divisions and even failing states Meanwhile Tunisia managed to assert itself as a new democracy How did this small country manage its democratic transition within such a short period And what implications has this had for its foreign policy and its role in international politics This book assesses Tunisia's transition inside and out from four angles Tunisian polity and politics which provide the framework for its foreign policy since the Arab Spring bilateral relations before and after the Arab Spring Tunisia's activism in international organisations as well as their presence in Tunisia and transnational issues in Tunisia Drawing on a broad range of primary sources including authors own interview material conducted with politicians and representatives of civil society and international NGOs involved in the transition process the book shows that since 2011 Tunisia has not only developed fundamentally at the domestic level but also at the level of external relations New and old alliances a broadening of relations and new activism of civil society and of Tunisia in international organisations certify that Tunisia has the potential to play an increasingly important role regionally as well as internationally Providing an encompassing picture of Tunisia's changed role and successful transition from an autocracy to a democracy the book allows students and scholars in the field to understand the last country standing better a country that both the scientific community and the political scene should not underestimate for the promises it holds

**Historical Dictionary of Libya** Ronald Bruce St John, 2023-03-15 Of all the countries in North Africa and the Middle East less has been known about Libya for decades Only recently have we begun to appreciate the complexity of Libya's turbulent past including the revolution in 2011 in which demands for better living conditions and more job opportunities led to widespread protests When the Muammar al Qaddafi regime responded with force to these peaceful protests killing scores of unarmed civilians the protesters called for regime change In what came to be known as the February 17 Revolution the 42 year old Qaddafi regime was overthrown and Qaddafi was killed in October 2011 Over the next decade Libya endured a series of interim transitional governments in a prolonged struggle to draft a new constitution and to elect a democratic national government Historical Dictionary of Libya Sixth Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 500 cross referenced entries on important personalities as well as aspects of the country's politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Libya

**optimization study in hydrocracker unit using simulation model** - Oct 23 2022

web hydrocrackers are key refinery units that convert heavy feed components into valuable lighter products the profitability  
of these units is directly related to this conversion level conversion reactions take place in a nearly pure hydrogen  
environment with the help of selective catalysts under high pressure and high temperature the products

hydrocracker inspectioneering - Jun 18 2022

web overview of hydrocracking unit hydrocracking units also known as hydrocrackers are types of process equipment used in  
petroleum refining hydrocrackers use hydrogen and a catalyst to break down heavy crude oil molecules into various  
distillates and gasoline it is also useful for converting high sulfur materials into low sulfur fuels making
