Great Britain. Parliament. House of Commons. Home Affairs Committee, 2008 Surveillance is defined as the use of monitoring and recording technology along with the creation and use of databases of personal information and the record of communications in the digital age The potential for surveillance of citizens in public spaces and private communications has increased dramatically over the last decade making it possible for what the Information Commissioner calls the electronic footprint people leave in their daily lives to be built up into a detailed picture of activities The Committee examined the benefits of surveillance in terms of public safety and public services and the risks in terms of the consequences of mistakes mis identification and loss of sensitive information In the design of its policies and systems for collecting data the Government should adopt a principle of data minimisation it should collect only what is essential to be stored only for as long as is necessary The report calls on the Government to give proper consideration to the risks associated with excessive surveillance Loss of privacy through excessive surveillance erodes trust between the individual and the Government and can change the nature of the relationship between citizen and state The report sets out a series of ground rules for Government and its agencies to build and preserve trust The Government should make full use of technical means of protecting personal information and preventing unwarranted monitoring of individuals activities But the Government should also carry out rigorous risk analysis of any proposal to establish major new databases or other systems for collecting data take full responsibility for protecting personal information and ensure that its policies and procedures in relation to data collection and storage are as transparent as possible *Investors Chronicle* ,2004 *Customer's New Voice* John S. McKean, 2014-10-13 Find out how to reap the benefits of motivating and engaging the new direct customer voice The Customer s New Voice shows businesses how to motivate and transform directly volunteered consumer knowledge into profitable insights enabling a new echelon of

marketing relevancy customer experience and personalization With a deep look at the inner workings of how a modern generation of business innovators are tapping into the fresh opportunities with the customer s new voice this book describes how businesses are transforming inference based predictions of purchase intent with direct consumer knowledge of their actual intentions and buying context The result An untouchable unprecedented level of offer relevancy experience and personalized service levels Those offers range from the most basic app model of Give me your physical location we ll find the best Thai restaurant near you and give you an instant coupon to a more complex model such as an Electric utility value proposition We ll give you discounts to charge your Prius during certain times to help us optimize our grid efficiency while allowing Toyota to monitor and optimize your battery to enable Toyota s R however this type of data has less than 10 percent accuracy This low effectiveness also necessitates up to 70 percent of a business s cost infrastructure Direct consumer knowledge is now available and boasts up to 20 50 percent accuracy yet businesses remain anchored in the old indirect competencies This book helps companies integrate compelling sharing motivators and controls for consumers to feel motivated and safe about directly sharing their product and experience desires providing the ultimate market advantage Learn how to catch up to the new digitalized consumer Leverage direct consumer information from current megatrends Navigate privacy s current and future metamorphosis Unlock the untapped value of Big Data s true enabler Little Data Parsing incidentally volunteered data has been stagnant for decades due to the capabilities and expectations of a new generation of enabled consumers The timeless reality is that any level of investment in computing power data and analytics will never approach their full ROI potential without interfusing the direct intentional insights from the consumer If today s forward thinking companies want to profitably engage the new consumers they must learn the secrets of motivating and safeguarding this new potential of customer transparency The risks of not engaging these new consumer voices Irrelevancy and Silence The Customer s New Voice shows businesses how to fulfill the promise and caveat of the new consumer If you make my life easier reward me and respect my shared information I will tell you my secrets *The Evaluation of opportunities of electronic commerce to retailing companies in the UK and Hong Kong* Thorsten Rohn,2000-11-03
