of the series started expanding to related fields of growing practical relevance for example to testing with regard to the B
ISDN protocol reference model in particular ATM the ODP reference model and the Internet protocol suite as well as to
interoperability testing and performance testing To reflect the extended scope the program committee agreed on a new name
for this series of working conferences to be applied the first time to the 1996 conference However in order to emphasize the
tradition of IWPTS the numbering of this series was continued such that IWTCS 96 is counted as the 9th International
