

Blackburne, 1997, p. 123: "Black and Shapere's (1996) book is a very welcome contribution to the philosophy of science, and it is a pleasure to read it."

But, as Black has so effectively demonstrated, Black's discussion of science is off-putting. For, if Black is correct, it is impossible to have a theory that is not subject to the same criticisms. Other arguments for Black's view are unconvincing, and would not get through to students. It is just as well, in fact, to tell students that Black's argument is not convincing, and that Black's reasoning is a little sloppy. — discussion: Black's position

For students, perhaps, present a given text (e.g., Black's) — compare: philosophical

Black is often presented as a philosopher and other philosophers are often presented as Black's opponents. — discussion: Black's position — Black's position
