Laura, a female version of Fielding's Tom Jones, did what she had to do with feisty, unquenchable determination to attain her happy ending. Be warned: It is not a tale of virtue rewarded. It's rather an honest, faithfully detailed, picturesque odyssey of a long walk on the wild side. That's what fascinated me. This is how a woman walked her road following her instincts and wits. There are women who live their lives outside the lines who seem to be the stuff of men's fantasies. If you have wondered what their motivations are and what's in their hearts, Laura's most intimate revelations will enable you to walk miles in her shoes. That gorgeous woman vivaciously tossing her hair over a luscious meal in an outrageously expensive restaurant, her slightly mismatched date devouring her with his eyes in anticipation. What's up there? Find out for yourself. The fast pace of the story and the quotes from familiar classics like Jane Eyre and The Doll House that precede each chapter hinting what's next work well. There are lots of travel stories and people anecdotes and the sense of a vivid acquaintance with a lively Italian family over decades. And there's a great how it ended closure chapter about the men in her past. If you can suspend yourself from judging. Enough to appreciate this tale's frankness, there are many insights to be had here. It seems to me this book could get some good discussions going, especially between men and women or across generations. The Trust Imperative Andrew Dolloff, 2022-05-15.

Never Trust a Teacher—Fight to Make Things Right Susan Fay Ryan, 2017-11-08 This book is dedicated to good teachers everywhere Human nature dictates that from time to time even the best of teachers may make mistakes When they are made aware of such aberrations good teachers will recognize and repair them They will at a moments notice set things right with their students Bad teachers will refuse to acknowledge blunders and will engage in cover ups Parents and caregivers need to be mindful that they may run into bad teachers anywhere in any time period who may be guilty of the same sins Of necessity then in defense of their children parents and caregivers must be the watch dogs the whistle blowers and the prime movers for bringing about meaningful change In her book *Battle Hymn of the Tiger Mother* Amy Chua has set forth seven driving principals by which she governed her children Her fifth rule is 5 if your child ever disagrees with a teacher or coach you must always take the side of the teacher or coach Chua A 2011 New York NY PENGUIN BOOKS P 5 My advice states the contrary and I offer convincing concrete examples as to why you should Never Trust a Teacher Remember to FLIP the book over to find Twenty Two Timeless Tips to Trump the System Before being critical of teachers parents must prepare their children to be ideal students when they arrive at school In this supplement to the larger book I offer fundamental guidelines for parents and caregivers as they begin their childrearing years and gradually ease their children into the world of public school always remembering that Literacy and Love Go Hand in Hand

*Networks of Trust* Anthony Simon Laden, 2024-12-09 An eye opening look at how parents mistrust of colleges has less to do with what their kids are learning than with whom they come to trust Higher education is a familiar battlefield in today s culture wars The right accuses colleges and universities of indoctrinating conservative students with liberal values the left

with failing to be sufficiently inclusive The anxieties expressed on both sides of the political spectrum have much in common however and they are triggered not by colleges failures but by their successes So argues philosopher Anthony Simon Laden in Networks of Trust He highlights how a college education shapes students informational trust networks the complex set of people and institutions they rely on for the information they use to think about and understand the world While the networks that colleges build for students have great value learning to inhabit them pulls some students away from their families and communities If many people distrust institutions of higher education this is one reason why Networks of Trust offers a path forward one that preserves the value while reducing the harms of a college education It includes concrete suggestions for how colleges and universities can educate students in a manner that inspires and deserves trust one that bridges rather than deepens our social divides
