Kaschula,1993 A collection of papers reprinted from Bantu Studies and African Studies offers textual material and analyses of oral literature from southern Africa The three issues of text genre and interpretation receive equal attention within the volume The editor s intention is to provide readers with an opportunity to explore various literary genres produced in southern African communities through texts and through scholarly analysis The transformation of literary genres is also addressed emphasizing the ways in which oral performance is shaped by social forces The manipulation of language and oral art forms for political gain is not new society praise poetry songs folktales and wisdom lore and riddles In each case articles have been selected to reveal the historical and comparative bases of oral literary studies points to new directions in the analysis of oral literature and the need for a broader contextualization of southern African studies The collection of essays provides the groundwork for further exploratory studies across cultures and genres not only in Africa but in the world at large At the same time oral literature and more specifically African oral literature needs to be liberated in order to interact with other scholarly disciplines the original writings of the essays in this volume It is these very changes which provide research material for scholars in oral studies At the same time all students of the discipline must look at these seminal studies in order to appreciate the traditional bases of oral performance today **UCLA Working Papers in Phonetics** ,1987 *Embroided* Caroline Jeannerat,Éric Morier-Genoud,Didier Péclard,2011 Apartheid posed profound challenges to the conceptions of humanity and development that dominated the world stage after World War II Embroided analyzes the manner in which international religious organizations dealt with the formulation and implementation of apartheid The book studies this through an examination of the Swiss Mission in South Africa SMSA an institution that acted in South Africa Switzerland and the international ecumenical community As a socially embedded institution the SMSA mirrored divisions present within Swiss and South African societies on the issue of apartheid Embroided brings out the complex even turbulent nature of a missionary society at once political intermediary spiritual guide and non government organisation Caught between different communities and discrete continents missionaries discussed and debated their role in South Africa and attempted however fitfully to respond to the changes that swept through the country particularly as opposing nationalisms fought to seize hold of

Adler,2005-12-21 Increasingly teachers all over the world are grappling on a daily basis with the fact of multilingual classrooms In this book Jill Adler captures three inter related dilemmas that lie at the heart of teaching mathematics in multilingual classrooms Adler s identification and naming of the dilemma of code switching the dilemma of mediation and the dilemma of transparency arise from exploring the realities of actual classrooms and are shaped by a perspective of teaching as a social practice Adler provides a sharp analysis and strong theoretical grounding for her work pulling together research related to the relationship between language and mathematics communicating mathematics and mathematics in bi multilingual settings In so doing she offers a direct challenge to dominant research on communication in mathematics classrooms that has othered the multilingual setting in its normalisation of the monolingual classroom The norm is a multicultural one Set in contemporary South Africa a context of linguistic diversity and rapid change this book offers a spotlight whose beam is wide enough to

illuminate dilemmas at work in all mathematics classrooms **Abstract/index to A. S. A. Annual Meeting Papers** African Studies Association, 1960 **Witchcraft, Power and Politics** Isak Niehaus, Eliazaar Mohlala, Kally Shokane, 2001-05-20

This is an extraordinary account of witchcraft and witch hunting in the modern world. A powerful ethnographic study of witch hunting in 1980s South Africa, a period of rapid social change, this book demonstrates the extent to which witchcraft must be seen not as a residue of traditional culture but as part of a complex social drama which is deeply embedded in contemporary political and economic processes. Isak Niehaus provides the context for this fascinating study of witchcraft practices. He shows how witchcraft was politicised against the backdrop of the apartheid state, the liberation struggle and the establishment of the first post apartheid regime, which all affected conceptions of witchcraft. Niehaus demonstrates how the ANC and other political groups used witchcraft beliefs to further their own agenda. He explores the increasingly conservative role of the chiefs and the Christian church. In the process, he reveals the fraught nature of intergenerational and gender relations. The result is a truly insightful and theoretically engaged account of a much studied but frequently misunderstood practice.
