**Implementing Altmetrics in Library and Information Science Research** Baskaran, C.,2020-01-17 Researchers are becoming increasingly concerned with tracking the impact and reach that their research has on the academic community Through the implementation of altmetrics they can now better measure the value that their research has through the analysis of citing behavior and citation based research evaluation Measuring and Implementing Altmetrics in Library and Information Science Research is a critical research book that focuses on how altmetrics can help researchers to uncover evidence of societal engagement influence and broader impacts that demonstrate the value of their research It builds a more complete picture of the visibility and profile of individual researchers and observes real time social media updates that provide insight into how faculty's research is being shared from the moment it is published Featuring a range of topics such as citations big data and social media this book is essential for researchers educators librarians professionals academicians administrators and students Educational Leadership in Becoming Nuraan Davids,Yusef Waghid,2016-08-25 Educational Leadership in

Becoming reconsiders educational leadership in its current forms and presents a more plausible form of educational leadership to contend with the complexities currently found in universities and schools Much of the literature in vogue concerning educational leadership ranges from transactional to transformative representations of the concept in relation to educational management and policy curriculum inquiry and pedagogical action The primary aim of this book is to revisit some of the dominant understandings of educational leadership and to offer an extended view of the practice along the lines of potentiality and becoming Davids and Waghid argue that all current forms of educational leadership are insufficient to enact responsible human action particularly when it comes to addressing the combined issues of globalisation and equitable redress and transformation whether in relation to leading schools or universities The primary objective of the book is to draw on the Agambian notion of becoming in order to show that an educational leadership in becoming is better placed to not only address the myriad challenges besetting education but to also enhance the potential of leadership in action The book addresses an international audience by analysing conceptions of transformative leadership and should be read by anyone who is interested in education and educational leadership as well as the impact of neoliberal agendas on education and

society It should also appeal to those interested in the philosophy of education      Empowering Novice Academics for Student Success Dr Johann Hugo, 2021-04-26 This book is essential for academics that enter the field of higher education and training as it focuses on preparing teachers and trainers to respond appropriately to student success challenges Student success is a burning issue both globally and locally While student achievement is determined by a combination of factors teachers and their teaching practices do matter Higher education teachers are expected to fulfil different roles at different times such as planning for curriculum implementation mentorship and coaching facilitating learning resource development and student assessment Against this background the primary purpose of Empowering novice academics for student success Wearing different hats is building the capacity of novice teachers and trainers to play an influential role in increasing student success throughput      Web-Based Services: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2015-11-09 The recent explosion of digital media online networking and e commerce has generated great new opportunities for those Internet savvy individuals who see potential in new technologies and can turn those possibilities into reality It is vital for such forward thinking innovators to stay abreast of all the latest technologies Web Based Services Concepts Methodologies Tools and Applications provides readers with comprehensive coverage of some of the latest tools and technologies in the digital industry The chapters in this multi volume book describe a diverse range of applications and methodologies made possible in a world connected by the global network providing researchers computer scientists web developers and digital experts with the latest knowledge and developments in Internet technologies

**Neoliberalism in the Tourism and Hospitality Sector** Nadda, Vipin, Bilan, Sahidi, Azam, Muhammad, Mulindwa, Dirisa, 2018-10-26 Globalization is increasing interconnectedness and is offering immense opportunities for businesses worldwide Although it has been taking place for hundreds of years it has sped up enormously over the last half century increasing international trade greater dependence on the global economy and freer movement of capital goods and services While globalization can create opportunities for wealth in emerging economies it still cannot completely close the gap between the world's poorest countries and the world's richest Many view globalization as a threat to cultural diversity believing that it can drown out local economies traditions and languages and make travel to certain regions less desirable Neoliberalism in the Tourism and Hospitality Sector provides innovative insights into the adoption of glocalization as a measure to mitigate the threats posed by globalization within the travel and tourism industries It is designed for policymakers researchers government officials and marketers considering glocalization as a means to sustain the relevancy of local business and trade      *Decolonisation after Democracy* Laurence Piper, 2020-05-21 Decolonisation after Democracy addresses the provocative idea that we need to rid higher education of lingering forms of colonial knowledge This matters because in the colonial era much knowledge was put to the service of subjugating indigenous peoples and the assumptions from this era may linger into the present Examples of deep rooted and foundational forms of knowledge that carry colonial

traits are normative binaries such as civilised and backward modern and traditional and rational and superstitious In addition some accounts of positive values like freedom equality justice and democracy may hide the assumption that the western experience is the norm from which other kinds are rendered imitations deviations or pathologies In this collection some of South Africa s leading political scientists and academics engage with the challenge of decolonising knowledge in the research and teaching of politics It includes new insights about the state international relations clientelism statesociety relations and land reform and introduces new ways to engage the colonial library curriculum reform and the marginality of historically black institutions Finally the contributors deal with the decolonial challenge posed by the FeesMustFall student movements reflecting on issues of revolutionary politics and gender and sexual violence This book was originally published as a special issue of *Politikon*

Proceedings of the International Conference Theory and Applications in the Knowledge Economy Eduardo Tomé, 2016-07-08 Foreword TAKE 2016 is a dream that came true In about six months a group of friends and colleagues put together in an upcoming and very dynamic university a conference with 9 streams 3 keynotes and 3 special sessions 60 papers presented 6 posters and around 80 participants from 20 countries This is awesome I would like to deeply thank Aveiro University the GOVCOPP research centre the conference committee the keynote speakers the special session convenors the stream leaders the reviewers the authors and the administrative people for all their work and support I want to have two special words one for Blazenka Knezevic without whom the website would not have been possible the other for Gaby Neumann for work in these Proceedings Scientifically TAKE seems to be as important and new and far reaching We don't have shortage of models regarding the knowledge economy but we decisively lack to explore the relation between theory and practice TAKE is a step in exploring that difference We know that Exact sciences find the best answers and social sciences give the best questions J. C. Spender and we also know that Knowledge Management is more preached by scholars than done by practitioners Aino Kianto We assume the first idea and try to overcome the second Hopefully TAKE 2016 will be

a great success Thank you for everything

**Protest in South Africa** Heidi Brooks,Rekgotsofetse Chikane,2024-01-23

Popular protest has become a regular feature of post 1994 South Africa As a young democracy born out of resistance we may understand the contemporary manifestations of protest as extensions of this broader history However it is notably in the context of formal democratic institutions that popular protest has become an increasingly normalised mode of influencing policy demanding service delivery and forcing change Protest is constitutive of South Africa s democratic politics but also reflective of it Protest in South Africa Rejection reassertion reclamation explores the underpinnings of contemporary protest and both its short term causes and structural drivers Focusing on the surge of protest from the mid 2000s this edited volume provides an overview of the complexity of protest action the diversity of protest spaces and actors and responses to protest from both citizens and state The volume situates its analysis against the backdrop of the global wave of protest witnessed since the turn of the 21 century while examining protest in South Africa s local and historical contexts Contributors to the volume examine protests in relation to among other factors provision of infrastructure and services contestations around socio economic development issues of citizenship and demands for inclusive democratic governance Chapters also examine the role of women in protest action the policing of protest and the intersection of protest action with spaces of formal politics The volume also alerts us to the darker side of protest and the destruction and division it may foment It thus considers the prospects of South Africa s evolving sometimes violent protest terrain for social and state stability and democratic progress In the diversity of spaces sectors and communities of interests in which collective action has emerged Protest in South Africa Rejection reassertion reclamation shows how protest is underpinned by a rejection of the status quo a reassertion of interests and a reclaiming of the political and democratic space
