Turfloop University Faculties:

Turfloop a Conscious Pariah Kanyane Chris Kanyane,Chris Kanyane,2010 This book provides reflections on the butterfly effect on how Turfloop brought in the Age of Barack Obama What is the Age of Barack Obama To paraphrase Dr Ineke Van Kessel a prominent historian at the Leiden University in the Netherlands The University of the North also known as Turfloop played a vital role as the center of communication coordination ideological direction the engine of bringing the new South Africa was University of the North We approached this book like detectives Fortunately in our detective work we were not concerned with a particular agenda we were not trying to prove that a certain method of thinking was right or wrong We didn't want this book to be filled with personal opinions and biases We wanted this book to be juice and accessible to every person who reads it in whatever corner of the world We have to back up our story with facts of course and get other people to do practical analysis and later we added our own perspectives When we completed writing this book we passed it around amongst critical people spread across the globe Most of them said that the book is somehow highbrow and at the same time all together lowbrow which came as a compliment A lot of people are somewhere in between We want this book to embody that because there are many people there we want them to appreciate this book

Education, Race, and Social Change in South Africa John A. Marcum,2023-04-28 Education Race and Social Change in South Africa examines the deep rooted issues of higher education in South Africa highlighting the complex interplay between race politics and access to education Beginning with the colonial foundations of South African higher education in the early 19th century it traces the development of institutions such as the University of Cape Town and the University of Fort Hare reflecting the segregated nature of the education system As the country transitioned to a republic in the 20th century the policies of apartheid shaped the university landscape leading to the creation of separate institutions for various racial groups The book explores how these divisions have persisted particularly in the context of racial inequalities in enrollment and access to quality education with black students historically underrepresented in South Africa's leading universities The study also delves into the evolving nature of South African higher education in the face of racial segregation examining the impact of political shifts on the educational landscape With the rise of the National Party in 1948 and the implementation of strict segregation policies the book explores the creation of ethnic universities for non white students and the ongoing challenges faced by these institutions in providing quality education The book raises critical questions about the future of education in South Africa focusing on the need for reform to bridge the educational divide address teacher shortages and promote greater racial integration within universities It also considers the role of international collaboration and aid in fostering educational opportunities for black South Africans and suggests possible pathways for achieving equitable educational access This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed

scholarship accessible once again using print on demand technology This title was originally published in 1982 **The Road to Justice: The Bible and the law as cornerstones of civilisation and culture** Eltjo JH Schrage, Jan Adriaan van der Walt, Glynis van der Walt, Hashali Hamukuaya, 2023-10-24 The relationship between art Christian culture and the law often receives attention It is trite that law influences all human lives as well as culture and art The law however does not only provide a context within which art and culture can develop but it is also the cornerstone of civilisation and culture On the other hand we must contemplate whether civilisation and culture are necessary conditions for a legal system This book consists of a compilation of essays narrating the influence of principles from the Bible on which the Christian belief is premised and practised by Christians worldwide on law and on culture Consideration is given to the foundation of the law on different and well known Biblical texts The interplay between Christian principles vis vis the law and culture is considered and unpacked in this research In addition copies of well known art depicting scenes from the Bible enhance each chapter The main author the late Prof Eltjo Schrage passed away shortly before the book was published with the assistance of Prof Jan Adriaan van der Walt Dr Glynis van der Walt and Dr Hashali Hamukuaya **Advanced Functional Porous Materials** Arya Uthaman, Sabu Thomas, Tianduo Li, Hanna Maria, 2021-11-13 This book presents synthesis characterization and applications of macroporous mesoporous nanoporous hierarchical porous porous metals and porous ceramics Special emphasis is given to the preparation of porous activated carbon materials and porous ionic liquid derived materials for CO₂ emissions mitigation Additionally a chapter includes the physical and mathematical modeling in porous media Many analytical techniques for characterization are discussed in this book Also the biomedical and industrial applications of porous materials in adsorption catalysis biosensors drug delivery nanotechnology are described The content helps solving fundamental and applied problems in porous materials with length scales varying from macro to nano level Limpopo's Legacy Anne Heffernan, 2019 Argues that the historical primacy of youth politics in Limpopo South Africa has influenced the production of generations of nationally prominent youth and student activists among them Julius Malema Onkgopotse Tiro Cyril Ramaphosa Frank Chikane and Peter Mokaba *Working with indigenous knowledge* Fhumulani M. Mulaudzi, Rachel T. Lebeso, 2022 The aim of the book is to assist both local and international scholars in articulating the scholarly discourse on indigenous health attitudes practices and experiences The indigenous lens that was used to generate and disseminate indigenous knowledge in this book will strengthen indigenous scholarship thus making it accessible to a wider audience In addition the information shared in this book will add value for scholars and assist them with the indigenous knowledge needed to address sustainable development goals This book is timeous and topical as the discourse on the decolonisation of the curriculum is widely debated in the higher education space The discourse on the scholarship of indigenous knowledge as the tacit local knowledge that stems from cultural practices within communities has not been well articulated in the current health science education milieu Indigenous knowledge has remained overlooked and undermined for a very long time and the

information remains untapped in local communities The scholars who conducted the research on which this book is based unearthed a wealth of knowledge which was tacit in nature and translated it into implicit knowledge that can be documented and shared with other scholars globally This knowledge will assist health care scholars in benefiting from knowledge practices and cultural beliefs that will assist them in health care planning teaching evidence based practice and further research

Management Studies in South Africa Shaun Ruggunan,R. Sooryamoorthy,2018-09-20 This book examines the trajectory of management studies in South Africa during the apartheid and post apartheid periods The unique political journey of South Africa provides a distinctive context in which to explore the progression of management studies within a developing state The authors consider how Apartheid has configured the discipline of management studies to reflect certain racial institutional and gendered trends and analyse the extent to which these trends have adapted or changed in post Apartheid times Appealing to management scholars and professionals this book provides implications for policy and practice within the South African higher education sector and presents avenues for future research

Health and Educational Success Tebogo Maria Mothiba,Takalani Mutshatshi,Irene Ramavhoya,2023-12-06 This book discusses health and educational success from a variety of perspectives It discusses the management of various health conditions such as diabetic mellitus epilepsy mental health hepatitis and HIV AIDS It covers a broad range of topics including strategies that can be used in a healthcare setting in communication as well as transmission of knowledge from one generation to another The focus of the chapters is on patients and their families physiotherapy occupational therapy biokinetics nursing medical students and their facilitators educators and institutions of higher education As such this book is relevant to a variety of sectors in health and education

Student Resistance to Apartheid at the University of Fort Hare Rico Devara Chapman,2016-05-12 The book explores forms of popular student resistance to apartheid education in South Africa particularly at the University of Fort Hare UFH by tracing student activism at UFH from 1970 to 2000 highlighting the factors that influenced the development of a culture of student resistance investigating the root causes that made Fort Hare exceptional in its stand against apartheid and chronicling the educational and social implications that resulted from students unparalleled and fearless actions against the apartheid system Student resistance at Fort Hare can be traced as far back as the 1940s however this book will primarily focus on the critical 1970 2000 period which was marked by increased student activism in South Africa The 1980s and 1990s were peak years for student activism in the country There is no doubt that student struggles during this period and thereafter helped dismantle apartheid and usher in a new South African government

Food Security for African Smallholder Farmers Hupenyu Allan Mupambwa,Adornis Dakarai Nciizah,Patrick Nyambo,Binganidzo Muchara,Ndakalimwe Naftal Gabriel,2022-02-28 This book provides a synthesis of current agricultural research in Africa with the aim of presenting evidence based information that can be directly applied into improving the African smallholder farmers food security It presents positive scientific research that has been undertaken in Africa in

simpler terms thus driving the research for development agenda contributing to the attainment of SDG 2 Numerous research that targets resource poor African smallholder farmers has been published yet the region faces very low productivity levels This lack of translation from research to food security and increased agricultural incomes is due to the poor uptake of scientific research by farmers which is partly due to poor presentation of this body of knowledge into simpler forms that extension workers and farmers can directly adopt Therefore this book offers research information in an easy digestible and application oriented style so as to enable transformation of the African agricultural sector by effectively driving agricultural productivity in Africa This book is of interest to African extension workers who will translate the simplified knowledge into lessons that can be useful to smallholder farmers The book is also beneficial for policy makers as well as academics researchers and other science based professionals

Essays in Public Theology Dirkie Smit, 2007-04-01 What is the role of the church in society What role did the church play in South Africa during apartheid in the struggle against apartheid and during the period of transformation The essays collected and published in this volume deal with questions such as these They are all occasional pieces They were written over two decades and reflect the times in which they originated always intended for specific audiences always addressing issues of the particular moment

The Origin and Growth of Geography as a discipline at South Africa

Universities Gustav Visser, Ronnie Donaldson, Cecil Seethal, 2016-09-20 Black Tertiary Education, 1987, 1988 *Trade and Industrial Development in Africa* Moyo, Theresa, 2015-03-02 This book revisits the perennial challenge that scholars economists and politicians have been grappling with since the 1960s Development in this book has been defined in a context that projects it as a multidimensional and complex process which seeks to enhance the human social economic and cultural welfare of the people This book calls for a rethinking of trade and industry for Africa s development It uses data drawn from national development plans and strategies and trade and industry issues have been prioritized at the continental level in key policy documents On the whole Africa s industry and trade performance have been poor in spite of national regional and continental plans The contributors to this volume propose some alternative strategies and policies which are necessary for trade and industry to grow and to contribute to the well being of Africa s people It calls for a developmental trade and industry policy which fundamentally must be people centred African states should invest time energy and resources to develop policies which will take into consideration African realities The different contributors are aware that Africa has experienced strong economic growth in the recent past but this growth has largely been due to a strong demand for Africa s primary commodity exports It has also been a result of increases in productivity and domestic investment and remittances from Africans living in the Diaspora It is important to note that despite this unprecedented growth performance the impact of trade and industry on development has been limited The book argues that a structural transformation of Africa s economies is inevitable if Africa is to achieve the shift from the dominant paradigm of production and export of primary goods The various contributors to this book agree that there is need to rethink policy and strategy in order to achieve industrial development in Africa There is no unique solution or answer that can fit all situations as African countries are not the same While Africa can draw lessons from other regions which have successfully industrialized this book argues that policies and strategies will have to be adapted to country specific situations and circumstances **The Road to Soweto** Julian Brown, 2016 Conclusion Consequences Bibliography Index
