Analytics for Innovation in Medicine Gary D. Miner,Linda A. Miner,Scott Burk,Mitchell Goldstein,Robert Nisbet,Nephi Walton,Thomas Hill,2023-02-08 Practical Data Analytics for Innovation in Medicine Building Real Predictive and Prescriptive Models in Personalized Healthcare and Medical Research Using AI ML and Related Technologies Second Edition discusses the needs of healthcare and medicine in the 21st century explaining how data analytics play an important and revolutionary role With healthcare effectiveness and economics facing growing challenges there is a rapidly emerging movement to fortify medical treatment and administration by tapping the predictive power of big data such as predictive analytics which can

bolster patient care reduce costs and deliver greater efficiencies across a wide range of operational functions Sections bring a historical perspective highlight the importance of using predictive analytics to help solve health crisis such as the COVID 19 pandemic provide access to practical step by step tutorials and case studies online and use exercises based on real world examples of successful predictive and prescriptive tools and systems The final part of the book focuses on specific technical operations related to quality cost effective medical and nursing care delivery and administration brought by practical predictive analytics Brings a historical perspective in medical care to discuss both the current status of health care delivery worldwide and the importance of using modern predictive analytics to help solve the health care crisis Provides online tutorials on several predictive analytics systems to help readers apply their knowledge on today s medical issues and basic research Teaches how to develop effective predictive analytic research and to create decisioning prescriptive analytic systems to make medical decisions quicker and more accurate Predictive, Prognostic Biomarkers and Therapeutic

Targets in Breast Cancer Zhi-Ming Shao,Yi-Zhou Jiang,Zhijie Jason Liu,Shengtao Zhou,2022-09-28 **East Asia and Food (In)Security** Shaun Breslin,Christopher W. Hughes,2017-10-02 This book presents a study of perceptions of food insecurity in East Asia and explores how individual countries are developing strategies to deal with the situation It also looks at how the perception of food insecurity has increasingly influenced the nature of international interactions not just within East Asia but also in the region s relations with major external actors Many of the challenges facing East Asia are generic food security issues that face people and governments across the world for example the implications of climate change and demographic changes on food supplies This book places the East Asian context in the wider discussion of food in security in global politics However it also identifies potential regional differences for example the significance of rice for the region and the unavoidable impact of China as a major regional player What the Chinese state and Chinese companies decide to do in response to concerns about food insecurity have an impact not just on the rest of the region but on the rest of the world Taking too much of a Sinocentric focus however ignores other actors in East Asia or merely relegates discussion to how they respond to Chinese policies or external strategies This book considers the region as a whole both when it comes to thinking about food security challenges and responses within the region itself and also in the outward projection of regional food insecurity on the rest of the world This book was published as a special issue of The Pacific Review **Popular**
