Mock Exam contains 5 questions in increasing order of difficulty to be answered in a time not exceeding 30 minutes where each correct answer is worth one point and the incorrect answer zero points. The main topics covered by the questions include sets of numbers, arithmetic operations, math and logic puzzles, divisibility, prime numbers, GCF, LCM, fractions, statistics, and probability, geometry in the plane, and solids. The exams included in each volume have been divided into two categories, namely elementary school and middle school, each of them with a total of ten Mock Exams. In this second volume, the exams from 11 to 20 are included. The students may only have pencil, eraser, and sharpener. Blank sheets will not be required as the workbook has been designed so that the students can solve each question in the same workbook. No calculators, rulers, graph paper, or any other aid can be used. In addition, the students will find the answers to each question at the end of the book so that they can verify their results obtained. Finally, the indispensable support of parents or an academic tutor is recommended so that they can guide the student in case of doubts and the evaluation is carried out with the greatest objectivity and responsibility possible.
