Congress, 2001 **Ivo on Ascension and the Liberation of Planet Earth** Sharon Stewart, 2018-02-06 Again Sharon and Ivo have joined forces to help you with your role of Lightworker here on earth Ivo on Ascension and the Liberation of Planet Earth is a thought provoking book which opens your eyes to what's happening within you and the world around you as we undergo enormous personal and global rebirthing What's happening to your body and why Why is your reality changing As you begin to experience a greater multidimensional reality and heightened states of consciousness Ivo answers questions you have as to why how and where is this taking you from his advanced galactic perspective This essential information will make you rethink your future path in life and will open you up to new experiences as you go through this evolutionary process As

our world begins to change from a meaningless money driven warring world to one of benevolence peace and love Ivo divulges information not intended for those who aren't ready to hear Written with love for you from Ivo and Sharon **A Man From Planet Earth** Giancarlo Genta, 2015-08-26 Sometime in the not too distant future unbeknownst to Earth the Galaxy is home to a number of spacefaring societies This confederation enforces a strict protocol forbidding any contact with civilizations that have not yet achieved both a substantial spacefaring capability and sufficient maturity to control the technology explosion before triggering their own extinction While this policy is intended to only bring in peaceful new members matters change entirely when the confederation is threatened by some unknown entity is the menace real or imagined The confederation decides to break with the rules and sends a delegate to Earth to hire one of the supposedly belligerent Earthlings to investigate and to revive the confederation's long unused starfleet The Earthman agrees but demands a high price should he succeed the confederation will have to accept Earth as a new member As the threat becomes ever more acute the question soon becomes which mission will prove harder saving the confederation or convincing it to accept the deal The extensive appendix written in non technical language reviews the scientific and technological topics underlying the plot ranging from the Fermi paradox space travel and artificial collective intelligence to theories on possible universal convergences in technological and biological development *Planet Earth and the New Geoscience* Victor Schmidt, William Harbert, 2003-08 **NASA, Mission, the Universe**, 1993 **Public Papers of the Presidents of the United States** United States.
