Food and the Self Isabelle de Solier, 2013-10-10 We often hear that selves are no longer formed through producing material things at work but by consuming them in leisure, leading to meaningless modern lives. This important book reveals the cultural shift to be more complex, demonstrating how people in postindustrial societies strive to form meaningful and moral selves through both the consumption and production of material culture in leisure. Focusing on the material culture of food, the book explores these theoretical questions through an ethnography of those individuals for whom food is central to their self. Foodies. It examines what foodies do and why they do it through an in-depth study of their lived experiences. The book uncovers how food offers a means of shaping the self not as a consumer but as an amateur who engages in both the production and consumption of material culture and adopts a professional approach which reveals the new moralities of productive leisure in self-formation. The chapters examine a variety of practices from fine dining and shopping to cooking and blogging and include rare data on how people use media such as cookbooks, food television and digital food media in their everyday life. This book is ideal for students, scholars and anyone interested in the meaning of food in modern life. **Good**

The Getting of Garlic John Newton, 2018-10-01 The white colonisers of Australia suffered from Alliumphobia, a fear of garlic. Local cooks didn't touch the stuff and it took centuries for that fear to lift. This food history of Australia shows we held onto British assumptions about produce and cooking for a long time and these fed our views on

racial hierarchies and our place in the world Before Garlic we had meat and potatoes After Garlic what we ate got much more interesting But has a national cuisine emerged What is Australian food culture Renowned food writer John Newton visits haute cuisine or fine dining restaurants the cafes and mid range restaurants and heads home to the dinner tables as he samples what everyday people have cooked and eaten over centuries His observations and recipes old and new show what has changed and what hasn't changed as much as we might think even though our chefs are hailed as some of the best in the world
