Food in the Migrant Experience Anne J. Kershen, 2017-03-02 At its most basic food is vital to our survival there can be no form of life without it But in economically developed and thriving societies there is more to eating and drinking than just surviving As the centuries have passed the marketing preparation and presentation of food has become an intrinsic part of the modern consumer society Food operates in the religious sphere too with consumption and abstinence playing their part in religious ritual whilst methods of animal slaughter have moved into the political as well as the religious arena Food not only sustains the migrant on both the real and metaphorical journey from home to elsewhere it also provides a bridge between the familiar and the unfamiliar Food acts as a catalyst for cultural fusion and excitement but it can also endanger change of diet all too frequently creating as many health problems as it resolves Its multi disciplinary nature enables *Food in the Migrant Experience* to address all the above issues in chapters written by leading academics in the fields of migration economics nutrition medicine and history As we continue to explore the minutiae of the immigrant experience this book will be essential reading to all those engaged in the study of migration
