The Capitalism Survival Guide Yvon Vitalyevich Serov, 2023-02-01 What is credit How do I invest How do I get a job What about building a career budgeting getting rich and all the rest Come to think of it how come I never learned any of this in school We the general population are thrown into capitalism with a sea of such questions in tow Just as we start to discover who it is that we are we're forced to play a game that we never signed up for without so much as an explanation of the rules or an introductory welcome This meta game of capitalism has become a ruthless divider between those in the know and those who aren't While the well prepared prosper the rest of us are left behind to use rather convincing nods amongst dinner conversations to make it seem like we understand how a credit score actually functions Because surely we should have this all figured out by now right The contrasting reality is harsh no one took the time to sit us down and explain how everything works They only instructed us to find jobs but never explained how to build a career or why Now years later we feel too distant from these concepts to bridge the gap suffering in silence as we struggle to make ends meet Well I say if you're going to play their game you may as well play it well So here it all is I'm sitting you down and showing you their cards A Capitalism Survival Guide that shows you how this all works in under 200 pages Let's get started
