Reteaching Activity Chapter 33 Section 3 Wars In Korea And Vietnam:

The Korean War and The Vietnam War Britannica Educational Publishing, 2009-10-01 In the 1950s and 1960s and on into the 1970s the United States was involved in two wars fought far from home one in aid of South Korea against the neighboring Communist North Korea and a second waged through the jungles of Vietnam Cambodia and Laos Both of these military engagements were a reaction to what the United States feared as being Communist takeovers and were surrounded by a strong degree of political controversy This book explores both wars in detail to help readers understand why the conflicts occurred and what their lasting effects have been **The Korean War's Project Blue Book** Kenneth Arnold, 2020-11-23 1947 is considered by most historians of the United States as the year when the Cold War began with the implementation of the Truman Doctrine to contain the propagation of world Communism which give rise to the anti communist hysteria of the following years By June 25 1950 some 75 000 soldiers from the North Korean People s Army poured across the 38th parallel the boundary between the Soviet backed Democratic People s Republic of Korea to the north and the pro Western Republic of Korea to the south This invasion was the first military action of the Cold War By July American troops had entered the war on South Korea s behalf Also in those same early days of the Cold War the skies over the continental U S were flush with sightings of objects that led many Americans to look to the stars for answers However at the same time a unexpected invaders appeared in the skies over Korea During the 37 month conflict dozens of men reported seeing unidentified flying objects At first it was theorized that these crafts might be Soviet or Chinese vessels with technology unknown to American troops or Soviet experiments based on German technology or foreign research in anti gravity powered by electromagnetic propulsion However as times went on UFO sightings throughout the Korean war increased This fact discredited the Soviet Experiment Theory because the Soviet Union or even China or the US at that time did not have the technological capabilities to develop this kind of weapon and texted it so often Finally in July 1953 the Korean War came to an end After three years of a bloody and frustrating war the United States the People s Republic of China North Korea and South Korea agree to an armistice But American GI s continued reporting seeing strange objects in the skies well into the year 1954 The following year that the Korean War ended the United States Air Force ran Project Blue Book aka Project 10073 It was a systematic study into unidentified flying objects and their potential threat to national security It was shutdown in December 1969 and the Air Force announced they had found nothing important However the project ended abortively and many questions remained like those strange objects reported during the Korean War This book is an authentic reproduction of the original printed documents on shades of gray IMPORTANT despite the fact that we have attempted to accurately maintain the integrity of the original work the present reproduction has missing and blurred pages poor pictures and FBI censorship s pencil markings from the original scanned copy Many of the original FBI documents and Project Blue Book pages are shadowy and faint ILLEGIBLE PAGES HAVE A NOTE Because this book is culturally important
