You're Teaching My Child What? Miriam Grossman,2009-08-04 If you think sex education is still about the birds and the bees think again And it s not about science either In her shocking expos You re Teaching My Child What Dr Miriam Grossman rips back the curtain on sex education today exposing a sordid truth Today s sex ed programs aren t based on science they re based on liberal lies and politically correct propaganda that promote the illusion that children yes children can be sexually free without risk As a psychiatrist and expert on sexual education Dr Grossman cites example after example of schools and organizations whitewashing or omitting altogether crucial information that doesn t fit in with their PC agenda Instead sex educators only tell teens the facts of life that promote acceptance sexual exploration and experimentation What sex educators call an education scientists would call a scam Sex educators won t tell girls their bodies are biologically and chemically more susceptible to STDs they will only say 3 million girls have a sexually transmitted infection Educators say it s natural for children to explore their sexuality from a young age and only they can decide when it s right to have sex the real truth is neurobiologists say teen brains are not developed to fully reason and weigh consequences especially in the heat of the moment Teens are told condoms vaccines and yearly testing provide adequate protection without being told that studies now show condoms are no match for herpes HPV and gonorrhea In You re Teaching My Child What Dr Grossman reveals biological truths that you won t find in today s classrooms You re Teaching My Child What is critical reading for parents with teens and instrumental in teaching children the truth about sex The Boston Globe Index ,2001 **The Mastery**
