Retraites Familles Et Immigration En France Et En Europe:

Transnational Families, Migration and the Circulation of Care Loretta Baldassar,Laura Merla,2013-09-11 Without denying the difficulties that confront migrants and their distant kin this volume highlights the agency of family members in transnational processes of care in an effort to acknowledge the transnational family as an increasingly common family form and to question the predominantly negative conceptualisations of this type of family It re conceptualises transnational care as a set of activities that circulates between home and host countries across generations and fluctuates over the life course going beyond a focus on mother child relationships to include multidirectional exchanges across generations and between genders It highlights in particular how the sense of belonging in transnational families is sustained by the reciprocal though uneven exchange of caregiving which binds members together in intergenerational networks of reciprocity and obligation love and trust that are simultaneously fraught with tension contest and relations of unequal power The chapters that make up this volume cover a rich array of ethnographic case studies including analyses of transnational families who circulate care between developing nations in Africa Latin America and Asia to wealthier nations in North America Europe and Australia There are also examples of intra and extra European Australian and North American migration which involve the mobility of both the unskilled and working class as well as the skilled middle and aspirational classes **Livres hebdo** ,2006

de plus mais 53 millions d'adultes de moins pour les nourrir C'est bien tard pour sauver les retraites et la forme ou plutôt la gestion ordonnée et de la faillite est encore très incomplète. Après avoir rappelé la catastrophe qui se dessine ce livre en étudie les remèdes politiques familiales et travail des seniors. Et bien sûr l'immigration qui peut être la meilleure ou la pire des choses.

L'enracinement Claudine Attias-Donfut, 2006-10-31 Porter un nouveau regard sur la vie des immigrés en France telle est l'ambition de ce livre qui décrit le vieillissement de ceux qui sont un jour partis de leur pays et sont désormais installés de longue date en France. L'immigration est un processus volontif dont les tenants et les aboutissants ne sont pas vraiment que dans la durée avec le recul du temps. Et c'est bien le temps qui garantit la profondeur d'un enracinement qui se réalise par la constitution d'une famille, l'acquisition d'un logement, une carrière professionnelle, des réseaux sociaux, l'obtention d'une retraite, partir d'une grande enquête sur le passage de la retraite des immigrés et sur leur parcours de vie. Cet ouvrage aborde l'essentiel de ces thémes et bien d'autres encore tels que la santé, les solidarités entre générations, l'appartenance religieuse, l'envoi d'argent au pays. Cette enquête est la première du genre en Europe à traiter la France par la Caisse nationale d'assurance vieillesse. La richesse de l'appareil statistique soutient en permanence les analyses qui convergent vers une conclusion majeure : les immigrés manifestent un profond attachement à la France. Ils aspirent généralement à vieillir quitte faire des vadettes et viennent avec leur pays d'origine. Ce double ancrage fait deux des agents potentiels de communication entre les générations et les peuples. Claudine ATTIAS DONFUT est sociologue directrice de recherche au CNRS. Cet ouvrage est le fruit d'une collaboration avec des spécialistes venus de différentes disciplines : Philippe DAVEAU, historien ; Régis GALLOU, sociodémographe ; Alain ROZENKIER, sociologue et François Charles WOLFF, professeur de sciences économiques.

30 moyens d'être célèbre après la retraite Philippe Andres, 2024-08-06 Au travers d'une centaine de biographies de personnalités présentes ou passées, ce livre explore les ressources humaines surprenantes de personnes qui ont accès à une certaine forme de notoriété ou de célébrité nationale ou internationale par l'usage de divers moyens très souvent inattendus de personnes de cet âge. Ces personnes le plus souvent étaient moins connues ou non reconnues du plus grand nombre au moment où elles atteignaient ou approchaient l'âge de la retraite. Le livre entend démontrer quel point l'humour est une absurdité et que le jeunisme ne vaut pas mieux car il laisse entendre qu'on devient très vite incapable de performances susceptibles d'être remarquées et distinguées. L'idée de ce livre est celle du constat que de très jeunes personnes

adolescentes ou pr adolescentes sont pr tes faire n importe quoi sur les r seaux sociaux pour se faire remarquer et attirer des followers alors qu elles ont toute la vie devant elles et pourraient largement se faire reconna tre bien plus tard par des actions plus int ressantes et valorisantes

the outskirts of Paris lie the bodies of a hundred of what many have called the first casualties of global climate change They are the so called abandoned or forgotten victims of the worst natural disaster in French history the devastating heat wave that struck France in August 2003 leaving 15 000 people dead They are those who died alone in Paris and its suburbs buried at public expense when no family claimed their bodies They died and to a great extent lived unnoticed by their neighbors discovered in some cases only weeks after their deaths And as with the victims of Hurricane Katrina they rapidly became the symbols of the disaster for a nation wringing its hands over the mismanagement of the heat wave and the social and political dysfunctions it revealed Chasing Ghosts tells the stories of these victims and the catastrophe that took their lives It explores the official story of the crisis and its aftermath as presented by the media and the state the anecdotal lives and deaths of its victims and the ways in which they illuminate and challenge typical representations of the disaster and the scientific understandings of catastrophe and its management It is at once a social history of risk and vulnerability in the urban landscape and an ethnographic account of how a city copes with dramatic change and emerging threats
