*Proceedings of the Workshop on High Strength Concrete* Surendra P. Shah,1980      **Petroleum Refinery Process Modeling** Y. A. Liu,Ai-Fu Chang,Kiran Pashikanti,2018-02-14 A comprehensive review of the theory and practice of the simulation and optimization of the petroleum refining processes Petroleum Refinery Process Modeling offers a thorough review of how to quantitatively model key refinery reaction and fractionation processes The text introduces the basics of dealing with the thermodynamics and physical property predictions of hydrocarbon components in the context of process modeling The authors three experts on the topic outline the procedures and include the key data required for building reaction and fractionation models with commercial software The text shows how to filter through the extensive data available at the refinery and using plant data to begin calibrating available models and extend the models to include key fractionation sub models It provides a sound and informed basis to understand and exploit plant phenomena to improve yield consistency and performance In addition the authors offer information on applying models in an overall refinery context through refinery planning based on linear programming This important resource Offers the basic information of thermodynamics and physical property predictions of hydrocarbon components in the context of process modeling Uses the key concepts of fractionation lumps and physical properties to develop detailed models and workflows for atmospheric CDU and vacuum VDU distillation units Discusses modeling FCC catalytic reforming and hydroprocessing units Written for chemical engineers process engineers and engineers for measurement and control this resource explores the advanced simulation tools and techniques that are available to support experienced and aid new operators and engineers      **Proceedings of the Workshop on High Strength Concrete, December 2-4, 1979** Surendra P. Shah,1980      *Journal of the Indian Institute of Architects* Indian Institute of Architects,1977      **Designing Better Architecture Education** Manjari Chakraborty,2015-11-11 Designing Better Architecture Education is an outcome of a research conducted systematically with diligence passion wide and in depth exercise on the obvious and latent aspects of undergraduate architecture education Although specific to India this study probes the diverse global scenario in acknowledgement of the global style of architecture where green preferences surface as compulsion The findings are arranged systematically analyzed impartially and inferred upon logically The final bunch of suggestions aimed at a much desirable architecture education revamp in India is in fact relevant for architecture education as a whole anywhere The author suggests compaction of graduation time intensification of exposures interactions and instructions shift of focus introduction of contemporary specializations restructuring intake revamping academic administration and a significant change of stance in teaching itself including methods philosophy attitude and paraphernalia The book provides valuable information insight and suggestions to rejuvenate the academic approach to the education of architecture and forms a reliable basis for further endeavour in this direction      Report of the Education Department for the Year Ended ...  Rajesh Sharma,2018-06-08 The book that you hold in your hands is a treasure trove of ideas to set into motion a new generation of learning for architects As the author is a practitioner of this technology called architecture he have often felt that globally it is the last field of knowledge that still displays vestiges of a holistic renaissance attitude of mind It has not fallen victim to our global love for economic development above all other considerations and is not always a handmaiden of consumerist culture Architects are somewhat obsessed with form Despite this or inspite of it the combine and harmonize the field of applied arts with the sciences the attitudes of engineering optimization with the expression of the visual arts covering subjects as diverse as chemistry and history India is possibly the world s largest future market for private sector architects today If we do not adapt our archiectural practice starting with our architectural teaching practices we run the clear and present danger of becoming extinct in the race for economic development and urbanization which is truly sustainable resilient sufficient and equitable In reading this little gem of a book the author would urge the reader to look beyond formulae and descriptions and generatean agenda for reform beyond just the curriculum and towards transformation As Indian society struggles to understand its architects the profession owes a duty to itself to remain relevant to social needs and aspirations to create a nation of our dreams And the author hopes that the beginning of that agenda can befound in the pages of this book interpreted by every reader individually      **Commerce Business Daily** ,2000      *Healthy Cities* ,1991
