Timely and smartly designed budget support remains a powerful tool to help address the new reality developing countries face providing fast disbursing finance in support of critical reforms. Set against the background of a dramatically changing international financial architecture the volume examines how budget support has evolved from its controversial past addresses the evidence on performance and debates over conditionality and it reflects on unmet expectations from the 2005 Paris Declaration. With the global financial crisis the Covid pandemic and the spillovers from conflict and climate change budget support re-emerged as a key financing instrument to support policy reforms and catalyze private capital. Drawing on the lessons of the last two decades the volume proposes a retooling of budget support as a versatile instrument to address both essential global public goods and tackle country specific development challenges.

A Guide to British Military History Ian F. W. Beckett, 2016-06-30 What exactly is military history. Forty years ago it meant battles campaigns great commanders drums and trumpets. It was largely the preserve of military professionals and was used to support national history and nationalism. Now though the study of war has been transformed by the war and society approach by the examination of identity memory and gender and a less Euro centric and more global perspective. Generally it is recognised that war and conflict must be integrated into the wider narrative of historical development and this is why Ian Beckett's research guide is such a useful tool for anyone working in this growing field. It introduces students to all the key debates issues and resources. While European and global perspectives are not neglected there is an emphasis on the British experience of war since 1500. This survey of British military history will be essential reading and reference for anyone who has a professional or amateur interest in the subject and it will be a valuable introduction for newcomers to it.
