## Child's History of the World

### Chapter 63: Fortune Hunters

Name \_\_\_\_\_

#### Overview

During the Age of Discovery in the 1500s, explorers ventured forth seeking gold, jewels, and spices. Portuguese sailor Vasco da Gama reached India by navigating around Africa in 1497. Ferdinand Magellan, another Portuguese explorer, proved the Earth's roundness by completing the first circumnavigation of the globe, traveling westward. Spanish explorer Balboa crossed Central America and discovered the Pacific Ocean, which he called the South Sea. Meanwhile, John Cabot, an English navigator, sailed across the Atlantic and landed on the coast of North America. These explorers significantly expanded global knowledge, paving the way for future exploration and trade.

*Anthropology and Global History* Robert M. Carmack, 2013-10-11 *Anthropology and Global History* explains the origin and development of human societies and cultures from their earliest beginnings to the present utilizing an anthropological lens but also drawing from sociology economics political science history and ecological and religious studies

Carmack reconceptualizes world history from a global perspective by employing the expansive concepts of world systems and civilizations and by paying deeper attention to the role of tribal and native peoples within this history. Rather than concentrating on the minute details of specific great events in global history, he shifts our focus to the broad social and cultural contexts in which they occurred. Carmack traces the emergence of ancient kingdoms and the characteristics of pre-modern empires as well as the processes by which the modern world has become integrated and transformed. The book addresses Western civilization as well as comparative processes which have unfolded in Asia, the Middle East, Latin America, and sub-Saharan Africa. Vignettes opening each chapter and case studies integrated throughout the text illustrate the numerous and often extremely complex historical processes which have operated through time and across local, regional, and global settings.

**UNTOLD HISTORY** Bernadine E. Ahonkhah, ED. D, 2025-01-06 *UNTOLD HISTORY* illustrates how African history is intertwined with and foundational to American history. The book begins this narrative in the fourteenth century when European seafarers discovered the coastal regions of Africa, describes the meeting of the three worlds: aEUR Europe, Africa, and the New World, later known as America, and details the increasing interactions of the three worlds after the 1450s. The author dispels some of the misconceptions about pre-colonial Africa by presenting the history and culture of the African continent from a distinctively African lens. As such, this book chronicles some prominent African empires and kingdoms, Africa-European bilateral trade relations, the trans-Atlantic Slave trade, and contemporary Africans in the United States. The book highlights stories of contemporary Africans residing in the United States and documents the contributions of early and contemporary Africans to the history, economic development, culture, and prominence of the United States of America. It concludes with a snapshot of contemporary Africa. The book provides a framework for understanding the history of Africa prior to the arrival of European merchants on its shores, African civilizations, cultures, legacy, and contributions to American history. Educators can use the book to supplement their course on American History, World History, African American History, in pre-collegiate or collegiate settings. This book can help educators to reimagine the teaching and learning of the United States history by centering on important narratives in Africa and with Africans in the American diaspora. The book is organized chronologically and can help the reader to understand the past as it relates to the present world. To facilitate teaching, each chapter opens with a quotation that introduces the content of the chapter and ends with study discussion questions that educators can use or adapt as appropriate for instruction and to ensure full comprehensive understanding of the content presented.

The New Global History Bruce Mazlish,2006-09-27 From a distinguished author in the field The New Global History is a critical inquiry into the historical process of globalization which is seen as a distinctly twentieth century phenomenon with its roots in the age of expansion of the early modern world Cutting across disciplinary boundaries The New Global History offers a fresh overarching view of the process of globalization that is always empirically based and discusses the most important themes such as policy trade cultural imperialism and warfare Bruce Mazlish argues that globalization is not something that the West has imposed upon the rest of the world but the result of the interplay of many factors across continents Students of history politics and international studies will all find this a valuable resource in the pursuit of their studies

Summary of Peter Singer's Hegel Everest Media,2022-05-28T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 Hegel was a German philosopher who lived during the French Revolution He was just short of his nineteenth birthday when the Revolution began and he shared the enthusiasm of

the period When Napoleon ruled over Europe Hegel praised him as a world genius who had been destroyed by mediocrity 2 Hegel was a German philosopher who lived during the golden age of German literature He was a close friend of the poet Holderlin and a contemporary of the leaders of the German Romantic movement including Novalis Herder Schleiermacher and the Schlegel brothers 3 Kant's work is considered one of the greatest philosophical works of all time He established that our mind is not a passive receiver of information obtained by our eyes ears and other senses Rather our mind plays an active role in organizing and systematizing what we experience 4 After the publication of the Critique of Pure Reason dissatisfaction began to be expressed with Kant's philosophy The first was his view of the thing in itself which seemed to limit the powers of human reason The second was his division of human nature which seemed to imply that we are always divided between reason and passion
