A Global History of Modern Historiography Georg G Iggers, Q. Edward Wang, Supriya Mukherjee, 2013-09-13 So far histories of historiography have concentrated almost exclusively on the West This is the first book to offer a history of modern historiography from a global perspective Tracing the transformation of historical writings over the past two and half centuries the book portrays the transformation of historical writings under the effect of professionalization which served as a model not only for Western but also for much of non Western historical studies At the same time it critically examines the reactions in post modern and post colonial thought to established conceptions of scientific historiography A main theme of the book is how historians in the non Western world not only adopted or adapted Western ideas but also explored different approaches rooted in their own cultures

The Asian Century Jan Romein, 2023-04-28 The Asian Century A History of Modern Nationalism in Asia examines the transformation of Asia from a region defined by disparate cultural traditions to one unified by its response to Western imperialism and its revolutionary embrace of modernity The author argues that until the 19th century Asia lacked a cohesive history fragmented into Islamic Hindu Buddhist and Sinic cultural

spheres with limited interaction However European dominance from the 19th century onward imposed a new unity catalyzing a revolutionary period of political independence social transformation and scientific and technological progress The book traces Asia s rediscovery of its own identity through its engagement with Europe highlighting the pivotal 20th century movements that ended colonial rule and set the stage for modernization Central to this narrative are the revolutionary changes in Japan China India and other nations which embraced science reformed social structures and pursued political sovereignty The impact of the Russian Revolution and Soviet influence also played a critical role in shaping modern Asian societies While acknowledging the destructive legacy of colonialism the author also recognizes the infrastructure education and administrative frameworks introduced by imperial powers as factors that facilitated Asia s modernization The study integrates perspectives from across the continent including Soviet Asia and emphasizes the ongoing challenge of creating a global unity that transcends historical antagonisms Ultimately the work views the Asian revolution not only as a regional awakening but as a significant step toward the unification of humanity and a more equitable global order This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1962
