World Affairs 2015 Almanac

George W. Schmidt

World Affairs 2015 Almanac:

The World Almanac & Book of Facts, 1927 **The World Almanac and Book of Facts**, 1923 Lists news events population figures and miscellaneous data of an historic economic scientific and social nature **The Middle East, Oil, and the U.S. National Security Policy** Donald M. Snow, 2016-03-17 Three interrelated subject areas are at the heart of the current foreign and national security dilemma One is the Middle East which has been the epicenter of most U S policy activity for over a third of a century The second is energy policy particularly as it is affected by the development and exploitation of shale oil and gas reserves in the United States This is linked to the Middle East because it has been American dependence on Middle East petroleum that has created the interest the U S has in this region The third area is military manpower policy and two simultaneous wars in the new century have raised questions about the all volunteer force policy in place since 1972 It is increasingly evident that foreign and defense policy are strained and in need of fresh conceptualization The three areas identified are the most obvious examples of policy dysfunction The key area is the Middle East region As long as the United States remains heavily committed to this part of the world especially with military force and essentially because of its energy needs there will be strains on manpower resources that could force a reexamination of the all volunteer concept At the same time the reduction of U S dependence on Middle Eastern oil loosens the bonds that seem to impel American activism in the region The result could be true opportunities for a less confrontational adversary driven foreign and defense posture **Canadian Almanac and Directory 2021** Grey House Canada, 2020-12 The Canadian Almanac Directory is the most complete source of Canadian information available cultural professional and financial institutions legislative governmental judicial and educational organizations Canada s authoritative sourcebook for almost 160 years the Canadian Almanac Directory gives you access to almost 100 000 names and addresses of contacts throughout the network of Canadian institutions *The Daily News Almanac and Political Register for ...*, 1923 *Awards Almanac, 1993* George W. Schmidt, 1992-09 **Global Problems, Global Solutions** JoAnn Chirico, 2018-10-11 Global Problems Global Solutions Prospects for a Better World by JoAnn Chirico approaches social problems from a global perspective with an emphasis on using one s sociological imagination Perfect for instructors who involve students in research this text connects problems borne by individuals to regional global and historical forces and stresses the importance of evidence in forming opinions and policies addressing social issues The book introduces readers to the complexities of the major problems that confront us today such as violent conflict poverty climate change human trafficking and other issues that we encounter in our lives It book concludes with a chapter on politics and government underscoring the need for good governance at all levels and cooperation among many layers of government to build a better world *The Middle East* The Emirates Center for Strategic Studies and Research, 2016-12-13 The research papers contained within this book which were presented at the ECSSR s 20th Annual Conference serve to shed light on the crucial events that have transpired throughout the Middle East and to provide a

foundation for critical discussion and conscious interaction Furthermore these papers present initiatives that aim to contain the region s crises and to formulate corresponding solutions The book aims to follow the profound transformations and violent tremors that threaten to reorder the region s political map The paradoxical nature of the conflicts in the region with complexities that are deemed to be strategically focused within the international realm is considered as a source of constant political tension on the regional level Within this context the chapters of the book examine the standing of the international anti terrorism coalition and the challenges it faces alongside the concept of the nation state in the Arab World and the confrontation with non state actors The book also diagnoses the sectarian and religious polarization that rips the region apart and the dimensions of international competition over the region Moreover the chapters of the book explore the horizons of possible reliance on China s role in stabilizing regional and international balances The functions of Arab collective action and their developments are also examined as well as joint Arab relations and their future outlook Through its depiction of the current political and strategic landscape within the region The Middle East Shifting Roles Interests and Alliances attempts to convey the needs of the region by shedding light on the nature of its divisions and paradoxes while also placing the context of current shifts within the tactical and strategic plans of regional and international players As such the subsequent potential repercussions that may impact security are analyzed alongside the developmental requirements for the region and the world at large

The Chicago Daily News Almanac and Year Book for ... ,1923 [A League of Democracies](#) John J.

Davenport,2018-12-07 In the 21st century as the peoples of the world grow more closely tied together the question of real transnational government will finally have to be faced The end of the Cold War has not brought the peace freedom from atrocities and decline of tyranny for which we hoped It is also clearer now that problems like economic risks tax havens and environmental degradation arising with global markets are far outstripping the governance capacities of our 20th century system of distinct nation states even when they try to work together through intergovernmental agreements and organized bureaucracies of specialists This work defends a cosmopolitan approach to global justice by arguing for new ways to combine the strengths of democratic nations in order to prevent mass atrocities and to secure other global public goods GPGs While protecting cultural pluralism Davenport argues that a Democratic League would provide a legal order capable of uniting the strength and inspiring moral vision of democratic nations to improve international security stop mass atrocities assist developing nations in overcoming corruption and poverty and in time potentially address other global challenges in finance environmental sustainability stable food supplies immigration and so on This work will be of great interest to students and scholars of international relations international organizations philosophy and global justice

[Air University Library Index to Military Periodicals](#) ,1997 *GOOD and EVIL* Annette Meyer,2015-04-20 The economy of the United States has been in turmoil for longer than most can remember It seems like everyone is talking about The Great Recession or a jobless recovery all the while pointing their fingers across the aisle attempting to place blame on the other side Is the increase in partisan

politics the result of increased economy volatility or is it the other way around What other factors contributed to our current situation and how do we fix a system that is obviously broken Annette E Meyer breaks the economy down to its basic elements and discusses trends and projections in four key areas higher education healthcare government and consumer prices She presents a thorough analysis of every major factor in economics over the past decades and more and she backs everything up with real numbers and a review of the opinions of top economists and political thinkers This is more than a crash course in economics it is a roadmap to help you understand an increasingly complicated world **The Latecomer's Rise** Muyang Chen,2024-06-15 In The Latecomer s Rise Muyang Chen reveals the nature and impact of a rapidly growing form of international lending Chinese development finance Over the past few decades China has become the world s largest provider of bilateral development finance Through its two national policy banks the China Development Bank CDB and the Export Import Bank of China China Exim it has funded infrastructure and industrial projects in numerous emerging markets and developing countries Yet this very surge and magnitude of capital has raised questions about the characteristics of Chinese bilateral lending and its repercussions on the international order Drawing on a variety of novel Chinese primary sources including interviews and official bank documents Chen pinpoints the distinctiveness of Chinese bilateral development finance explains its origins and analyzes its effects She compares Chinese policy banks with their foreign counterparts to show that the CDB and China Exim while state supported are in fact also market oriented they are as much government organs as they are profit driven financial agencies that serve both state and firms interests This approach which emerged out of China s particular economic history suggests that Chinese overseas lending is not merely a tool of economic statecraft that challenges Western led economic regimes Instead China s responses to extant rules norms and practices across given issue areas have varied between contestation and convergence Rich with empirical detail and penetrating insights The Latecomer s Rise demystifies the little known workings of Chinese development finance to revise our conceptions of China s role in the international financial system Getting to 67 Patrick Homan,2015-12-22 All four post Cold War presidents have attempted to negotiate and ratify at least one major arms control agreement However their experiences with arms control treaty ratification have differed greatly from those of their Cold War predecessors The main theme of this book is that domestic politics have significantly impacted attempts to ratify arms control treaties in the polarized post Cold War political environment Each president and each treaty faced varying amounts of support and opposition from the numerous institutions and agents within American foreign policy making This book uses an eight point analytical framework to examine five post Cold War arms control treaty ratification debates in order to try and determine what political conditions or variables account for their success or failure Taiwan During the First Administration of Tsai Ing-wen Gunter Schubert,Chun-yi Lee,2021-10-21 This book offers a substantive assessment of the first Tsai Ing wen administration investigating different policy fields and issues from 2016 to 2020 prior to Tsai s election for a second term Providing a balanced account of

government performance under Tsai s Ing wen s reign chapters in this edited volume combine theory and extensive empirical data to highlight both achievements and shortfalls of her administration Chapters range comprehensively from topics of the implementation of same sex marriage curriculum reform transitional justice industrial policy and pension reform which have been celebrated by domestic Tsai Ing wen supporters but have also met with considerable opposition from within Taiwanese society Externally cross strait relations the New Southbound Policy and the triangular relationship with China and the USA which embodied major challenges for Tsai s first administration are also analysed as key reference points throughout Featuring contributions from twenty six internationally renowned Taiwan scholars Taiwan During the First Administration of Tsai Ing wen is an essential resource for students and scholars of Taiwanese politics and society cross strait relations and international relations

Planning for the Planet Simone Schleper,2019-07-12 During the 1960s and 1970s rapidly growing environmental awareness and concern created unprecedented demand for ecological expertise and novel challenges for ecological advocacy groups such as the International Union for Conservation of Nature and Natural Resources IUCN This book reveals how despite their vast scientific knowledge and their attempts to incorporate socially relevant themes IUCN experts inevitably struggled to make global schemes for nature conservation a central concern for UNESCO UNEP and other intergovernmental organizations

Power of Bonding and Non-Western Emerging Great Powers Engagement Md. Nazmul Islam,2023-10-30 In international politics states often strive to maintain their position through either cooperation or force Soft power theory has emerged as a non violent approach for states to achieve national interest by utilizing intangible resources China and India have both successfully employed soft power strategies to expand their influence and Pakistan is a relevant case study for examining the soft power of China and India as it neighbors of both countries The withdrawal of the United States from Afghanistan has raised questions about how India and China will engage and cooperate in dealing with Pakistan as well as how they will fill the regional gap left by the US Nazmul Islam considers Joseph S Nye s Soft Power theory and develops a new idea of Power of Bonding based on non Western perspectives to examine India and China s soft power strategy on Pakistan Additionally it evaluates their areas of influence and soft power strategy in three thematic areas political and diplomatic engagement cultural attributions and attraction for power bonding and economic partnerships To accomplish these objectives the study relies on various research methods including content analysis of articles published in Pakistan s Dawn newspaper and one on one interviews with participants from Pakistan India and China

The 2017 Gulf Crisis Mahjoob Zweiri,Md Mizanur Rahman,Arwa Kamal,2020-11-09 This book provides an overview of the origins repercussions and projected future of the ongoing Gulf crisis as well as an analysis of the major issues and debates relating to it The Gulf region witnessed an extraordinary rift when on 5 June 2017 Saudi Arabia the United Arab Emirates and Bahrain cut all diplomatic ties and imposed a siege on the State of Qatar following the hacking of the Qatar News Agency website This book approaches the Gulf crisis from an interdisciplinary perspective by bringing together a group of top

scholars from a wide range of disciplines and areas of expertise to engage in a nuanced debate on the current crisis. With the pressing role of media in general and social media in particular, new political realities have been created in the region. The book addresses the role that cyber and information security play on politics as well as the shift of alliances in the region as a result of the crisis. It scrutinizes the role of media and information technology in creating political cultures as well as conflicts. The book also explores the long-term economic implications of the siege imposed on Qatar and identifies how the country's economy is adjusting to the impact of the siege. Thus, the book considers the extent of social and economic changes that the crisis has brought to the region. This book invites in-depth understanding of the regional crisis and its implications on nation building and the reconfiguration of political and economic alliances across the region. It will appeal to a broad interdisciplinary readership in the area of Gulf studies. The American Almanac, Year-book, Cyclopedia and Atlas, 1902

Carbon Capital Sean Field, 2025-08-26. Surprising insights into the worldviews of oil and gas financiers. It is no secret that the fossil fuel industry, whose products power modern America, both physically and financially inflicts immense destruction on our environment. The past, present, and future of US energy have been determined not just by engineers but by financiers, an understudied group of energy investors. Drawing on four years of ethnographic work in Houston, Texas, the financial center of the oil industry, *Carbon Capital* explores how oil financiers decide what a good investment is and how they incorporate ethics into their decision making. While many who are concerned about climate change see those involved in the gas and oil industries as immoral profit chasers who do not care about the environment, the author finds that this is not the case. His interviews and observations demonstrate that the people who finance the energy industries are actually deeply concerned with ethics. They grapple with questions about climate change and what it means to do the right thing, but the choices they make are ultimately guided by a combination of how they perceive the historical context in which they operate, their faith, which is largely religious, Christian, their financial interests, plus the capitalist system in which they are running, all of which come together to shape their moral understandings about what a good energy future looks like. While the worldview of oil financiers may not align with our own, the author argues that given their importance in shaping environmental approaches, it is crucial that we understand what drives their ethical sensibilities.

Delve into the emotional tapestry woven by Emotional Journey with in Experience **World Affairs 2015 Almanac** .
