Task Force on International Education, 1966 **Educating Global Citizens in Colleges and Universities** Peter N. Stearns, 2009-01-13 This book provides distinctive analysis of the full range of expressions in global education at a crucial time when international competition rises tensions with American foreign policy both complicate and motivate new activity and a variety of innovations are taking shape Citing best practices at a variety of institutions the book provides practical coverage and guidance in the major aspects of global education including curriculum study abroad international students collaborations and branch campuses while dealing as well with management issues and options The book is intended to guide academic administrators and students in higher education at a point when international education issues increasingly impinge on all aspects of college or university operation The book deals as well with core principles that must guide global educational endeavors and with problems and issues in the field in general as well as in specific functional areas Challenges of assessment also win attention Higher education professionals will find that this book serves as a manageable and provocative guide in one of the most challenging and exciting areas of American higher education today **Home Learning Year by Year** Rebecca Rupp, 2009-02-04 Finally homeschoolers have a comprehensive guide to designing a homeschool curriculum from one of the country s foremost homeschooling experts Rebecca Rupp presents a structured plan to ensure that your children will learn what they need to know when they need to know it from preschool through high school Based on the traditional pre K through 12th grade

structure Home Learning Year by Year features The integral subjects to be covered within each grade Standards for knowledge that should be acquired by your child at each level Recommended books to use as texts for every subject Guidelines for the importance of each topic which knowledge is essential and which is best for more expansive study based on your child s personal interests Suggestions for how to sensitively approach less academic subjects such as sex education and physical fitness

Narrating the Soviet Era in Russian School History Textbooks Olga Konkka,2025-09-03 This study focuses on how Russian history textbooks published between 1992 and 2021 dealt with the topic of the Soviet period 1917 1991 Representations of this part of Russia s past in school manuals have provoked vivid debates and bolstered government intervention in the field while a gradual shift towards a less critical narrative of the USSR in more recent textbooks is often presented as directed by Vladimir Putin This study combines research into these texts and inquiry into those who write publish approve or criticize them Bringing together these perspectives provides a more complex view of school textbooks as final products of both top down and bottom up processes This volume is aimed at postgraduates researchers and academics specializing in Soviet history contemporary Russian politics and society and history education and textbooks

The Historian's Contribution to Anglo-American Misunderstanding Ray Allen Billington,2016-04-14 This book examines text books used in English and American schools and determines the way in which national bias has been instilled into school children by the use of history books This study reveals that the deliberate distortion common a generation ago has disappeared but has been displaced by a more subtle form of bias that is more dangerous because it is less easily recognised It deals in particular with the treatment of the American War of Independence the War of 1812 and World War I The report contains positive suggestions to authors and publishers designed to eliminate all bias and to help them achieve historical objectivity

Subject Offerings and Enrollments in Public Secondary Schools United States. Office of Education,Grace Stevens Wright,1965

Routledge Library Editions: Historiography Various,2021-06-23 The greatest problem in historical scholarship theoretically and practically is the relation between historians and their subject matter The past is gone and historians can only study its remnants On what basis do scholars select certain facts from the mass of data left from the past How do they explain the interrelationship of the facts they select What criteria do they use to evaluate their subject The 35 volumes in this set originally published between 1926 and 1990 discuss and answer these essential questions faced by historians The development of historical understanding during the 18th and 19th centuries was one of the most striking features of Western culture Both historiography and historical thinking advanced as never before The historial movment of the 19th century was perhaps second only to the scientific revolution of the seventeenth century in transforming Western thought One consequence was extensive organisation and professionalization of research which the volumes in this set reflect
