Scripture Versus Science : Reconciling God's Ancient Wisdom

with a Modern World View Robert D. Harter, PhD,2015-07-12 With trepidation Dr Robert D Harter approached the subject of Earth origins and human development from the position of a lifelong Christian who is also a scientist He grew up in a rural Ohio Christian family and thoroughly understands the position of those who believe the Earth and everything in it was

created a few thousand years ago At the same time he is a university professor who understands the basis upon which the Earth is claimed to be millions of years old Both positions cannot be correct and it is probable that neither is completely wrong Using a scientist s analytical approach Dr Harter evaluated and compared biblical anthropological and geological records In Scripture Versus Science he proposes a resolution to the increasingly heated argument about evolution While unlikely to provide a clear and definitive answer this book begins to thin the fog that has developed around it He states There has been a lot of fog associated with whether God created the universe and everything in it or whether it just happened by chance In writing this book I attempt to show that the ideas supporting the two views are not necessarily mutually exclusive In other words I hope I have allowed a bit of sun to shine through the fog Hindsight Arden Wedzler,2021-02-25 By the year 2110 the world s population driven to self destruction thanks to wealthy elitists corrupt politicians and bankers and greedy self serving progressives Systemic greed and corruption within the halls of various governments and banks set in motion the engine of humanity s downfall These organisations have incited wars and conflicts between tribes religions and countries causing horrendous deaths pain and suffering for billions of innocent people Humankind is facing destruction To combat this six time travellers from the year 2612 emerge out of stasis with the goal of preventing a nuclear disaster set to occur in 2111 With the advantage of hindsight they visit six key historical events They hope to persuade people of influence to make subtle changes to their thinking and actions If all six events can be nudged in a slightly different direction the impending man made destruction might be averted Only time will tell whether the time travellers can overcome their two biggest enemies ego and self importance to prevent stupid mistakes from building a critical mass of human horror and causing humankind s extinction In this science fiction novel six people from the future arrive in the year 2111 seeking to prevent the destruction of humanity through intervention in key historical events Fashion Wholesaling Linda B.
