**Jonathan's Journey** Jayaraman Krishnan, 2018-01-02 A book that will change your imagination Murali Sunderarajan mywritingworld.com This book explains the practical implication of ethics moral reasoning and how people get trapped in a cognitive tunnel Chandrasekar Chatterjee former professor at Paris University He who can no longer pause to wonder and stand in awe is as good as dead his eyes are closed These words of Albert Einstein sound true of most of us Most of us are alive but are as good as dead Jonathan is not His guru the old man is not Jonathan's Journey is all about pausing to wonder about this enigmatic and ever elusive universe While science has answers Jonathan has more and more questions The answers he gets from his guru and his own research leaves him spellbound *Modern Conspiracies in America* Michael D. Gambone, 2022-05-15 an excellent guide to logic and credibility for all who are curious about this complex and urgent subject Booklist Starred Review America is awash with alleged conspiracies It seems like today no one with a cell phone escapes the vortex of skepticism cynicism paranoia and fear that occupy our thoughts almost constantly Seeking out valid answers in this cacophony can be confusing and deeply frustrating In this book historian Michael D Gambone provides case studies of popular conspiracy theories in America from the past 100 years from Protocol of the Elders of Zion to stop the steal He offers an approach based on basic logic and historical case studies not designed to win arguments but to help readers separate truth from the avalanche of nonsense descending on us every day In each case Gambone outlines the conspiracy claim provides historical context for the conspiracy presents evidence of the conspiracy claim and analyzes the claim context and evidence *Modern Conspiracies in American History* will appeal to a broad audience of readers interested in American history and those seeking to become better informed consumers of news in an era when social media spreads misinformation widely and quickly Love over Fear Dan White Jr., 2019-05-07 Aren't Christians Supposed to Be the Loving Ones Whether it's the news social media or well intentioned friends we're told daily to fear others We fear strangers neighbors the other side of the aisle even those who parent differently And when we're confronted with something that scares us our brain sees only two options Attack or Avoid But either way polarization intensifies What if you could defy your own instincts and choose a third option scandalous disruptive unthinkable LOVE Sure we love people who are like us who are easy to enjoy Everyone does But what about our enemies the people we consider monsters Loving them requires exceptional strength strength only the Holy Spirit can provide Love over Fear is a compelling guide to conquering fear with love in an age of polarization Hear stories of those who changed hearts and minds through radical love learn how to practice disarming compassion and discover the disruptive power of showing affection to monsters *Scripture Versus Science : Reconciling God's Ancient Wisdom with a Modern World View* Robert D. Harter, PhD, 2015-07-12 With trepidation Dr Robert D Harter approached the subject of Earth origins and human development from the position of a lifelong Christian who is also a scientist He grew up in a rural Ohio Christian family and thoroughly understands the position of those who believe the Earth and everything in it was created a

few thousand years ago At the same time he is a university professor who understands the basis upon which the Earth is claimed to be millions of years old Both positions cannot be correct and it is probable that neither is completely wrong Using a scientist's analytical approach Dr Harter evaluated and compared biblical anthropological and geological records In Scripture Versus Science he proposes a resolution to the increasingly heated argument about evolution While unlikely to provide a clear and definitive answer this book begins to thin the fog that has developed around it He states There has been a lot of fog associated with whether God created the universe and everything in it or whether it just happened by chance In writing this book I attempt to show that the ideas supporting the two views are not necessarily mutually exclusive In other words I hope I have allowed a bit of sun to shine through the fog

**The Realities of 'Reality' - Part II: Making Sense of Why Modern Science Advances (Volume 2 of 2)** Fritz Dufour, MBA, DESS, 2019-03-23 The difference between Part I and Part II Volumes 1 2 of this series is that in Part I the author showed how what we call reality starts with the inner self whereas Part II describes what in fact impacts and modifies the environment or reality and what are the factors behind that dynamics What impacts and modifies the environment is science This Volume 2 starts by showing how technology plays an important role in scientific progress Although the relationship between the two is symbiotic science can exist without technology but technology desperately needs science Military technology is an example of how technology can help science advance Some military inventions end up having civilian use Science being at the center of society the book makes the case for the direct impact of such social sciences as politics and economics on the advancement of science Politics says the author influences science because of uncertainty in science and economics does it thanks to the availability of money to scholars and scientists for their research On the other hand government also influences scientific progress through regulations The book gives cyberspace regulation as an example Furthermore by showing how art influences science the author really argues for the polyfactorial aspect of scientific progress In that line of thought he goes on to also prove that factors such as skepticism curiosity and the quest for knowledge greatly influence the advancement of science That says the author is a ninety degree turn By ending Part two that way I wanted to somehow link it to Part I which argues that reality starts from within

**Les réalités de la 'réalité' - deuxième partie: Vers une compréhension des facteurs responsables des progrès de la science moderne (Volume 2)** Fritz Dufour, MBA' DÉSS,2019-03-23 La différence entre la première partie et la deuxième partie volumes 1 et 2 de cette série est que dans la première partie l'auteur a montré comment ce que nous appelons la réalité commence avec le moi intérieur alors que la deuxième partie décrit ce qui en réalité affecte et modifie l'environnement ou la réalité et quels sont les facteurs derrière cette dynamique Ce qui impacte et modifie l'environnement c'est la science Ce volume 2 commence par montrer comment la technologie joue un rôle important dans les progrès scientifiques Bien que la relation entre les deux soit symbiotique la science peut exister sans technologie mais la technologie a de surcroît besoin de la science La technologie militaire est un exemple de la manière dont la technologie peut faire progresser la science Certaines inventions militaires finissent par avoir un usage civil La science tant au centre de la société le livre plaide en faveur de l'impact direct de sciences sociales telles que la politique et l'économie sur les progrès de la science La politique dit l'auteur influence la science en raison de l'incertitude de la science et l'économie le fait grâce à la disponibilité de fonds pour les chercheurs et les scientifiques D'autre part le gouvernement influence également le progrès scientifique par le biais de réglementations Le livre donne comme exemple la régulation du cyberspace En outre en montrant comment l'art influence la science l'auteur plaide en faveur de l'aspect polyfactoriel du progrès scientifique Dans cette optique il prouve également que des facteurs tels que le scepticisme la curiosité et la quête du savoir influencent grandement le progrès de la science Cela dit l'auteur est un virage à 90 degrés En terminant la deuxième partie de cette façon je voulais d'une manière ou d'une autre la relier à la première partie qui affirme que la réalité commence de l'intérieur
