

About This Study Guide:

In May 2012, the Texas Education Agency released Performance Level Descriptors that outlined what students at each EOC Performance Level could do. This study guide provides background information to help you prepare to meet these levels. It is your goal to achieve a Level II (Satisfactory) or Level III (Advanced) Performance.

Access the Performance Level Descriptors at <http://www.tea.state.tx.us/studentassessment/taar/socstudies/>

About the EOC Test:

There are 5 categories on the World History test. The chart below shows how many questions you can expect for each category.

History 8000 BC to AD 1750	18
History 1750 to the Present	20
Geography and Culture	10

- Interpret maps, graphs, and charts to show the relationship between geography and history.
- Explain and use primary and secondary source documents, considering the frame of reference, historical context, and point of view.
- Analyze information by sequencing, categorizing, identifying cause-and-effect relationships, comparing, contrasting, finding the main idea, summarizing, making generalizations and predictions, drawing inferences and conclusions, and developing connections between historical events over time.
- Know and use social studies vocabulary.

How to Answer a Multiple Choice Question:

- Examine the question. Read the entire question. Study any pictures, charts, passages, or maps.
- Recall what you know about the topic. Feel free to jot notes on your test.
- Answer the question. Check all of the answer choices and eliminate any choices that are obviously wrong.

General Study Tips:

- Plan ahead. You don't want to try to cram everything in the day or the week before the exam.
- Pick the right time of day to study. Try not to wait until late at night when you are too tired to focus.
- Find a study partner or group.
- Read, reread, and write, and rewrite your notes!

ACT Alliance and the Refugee Crisis Torbjörn Toll, 2024-12-18 The thesis attends to ecclesial matters of aid by analysing the ecclesiological problem of identity and meaning of ACT Alliance African churches are participating in aid and Ethiopia is a good case with its intensity of church based aid work ACT Alliance was an ecumenical initiative to act in solidarity with people in need through coordination and collaboration ACT i e Action by Churches Together expresses the churches growing together in koinonia In theory this ecclesologically informed idea was conceptualised as ecumenical diakonia Christian aid agencies may suffer a mission drift and loss of identity causing inner secularisation in the churches thus endangering Christian commitment to the poor Tensions in the study signify an ambiguity that this thesis investigates through the case of the ETH141 ACT Appeal to support South Sudanese refugees in Ethiopia in 2014 with two churches in Ethiopia shedding light on the issue The ACT forum failed to attract church funding and mobilised state funding by a consortium with a principled humanitarian approach appropriate for refugee assistance The Maedot of 1983 from the Ethiopian Orthodox Tewahido Church and the ECMY letter

of 1972 from the Ethiopian Evangelical Church Mekane Yesus supported integral human development while criticising a donor based approach based on a sense of Ethiopian ownership Christian anthropology and the gospel The ETH141 resembles an international crisis model i e relief assistance by ecumenical specialised agencies coordinating with other stakeholders without being integrated with the churches intended as intra church aid or set up for Christian mission Tensions indicate superficial conflict but deep concord between aid and church and deep conflict between exclusive humanism and the churches mission to reach every person with the gospel and life of the church

The Psychometrics of Standard Setting Mark Reckase, 2023-01-31 This book provides a unifying structure for the activities that fall under the process typically called standard setting on tests of proficiency Standard setting refers to the methodology used to identify performance standards on tests of proficiency The results from standard setting studies are critical for supporting the use of many types of tests The process is frequently applied to educational psychological licensure certification and other types of tests and examination systems The literature on procedures for standard setting is extensive but the methodology for standard setting has evolved in a haphazard way over many decades without a unifying theory to support the evaluation of the methods and the validation of inferences made from the standards This book provides a framework for going beyond specific standard setting methods to gain an understanding of the goals for
