Gregory, David R. Wilcox, 2015-11-01 A Choice Outstanding Academic Title The Zuni are a Southwestern people whose origins have long intrigued anthropologists This volume presents fresh approaches to that question from both anthropological and traditional perspectives exploring the origins of the tribe and the influences that have affected their way of life Utilizing macro regional approaches it brings together many decades of research in the Zuni and Mogollon areas incorporating archaeological evidence environmental data and linguistic analyses to propose new links among early Southwestern peoples The findings reported here postulate the differentiation of the Zuni language at least 7 000 to 8 000 years ago following the initial peopling of the hemisphere and both formulate and test the hypothesis that many Mogollon populations were Zunian speakers Some of the contributions situate Zuni within the developmental context of Southwestern societies from Paleoindian to Mogollon Others test the Mogollon Zuni hypothesis by searching for contrasts between these and neighboring peoples and tracing these contrasts through macro regional analyses of environments sites pottery basketry and rock art Several studies of late prehistoric and protohistoric settlement systems in the Zuni area then express more cautious views on the Mogollon connection and present insights from Zuni traditional history and cultural geography Two internationally known scholars then critique the essays and the editors present a new research design for pursuing the question of Zuni origins By taking stock and synthesizing what is currently known about the origins of the Zuni language and the development of modern Zuni culture *Zuni Origins* is the only volume to address this subject with such a breadth of data and interpretations It will prove invaluable to archaeologists working throughout the North American Southwest as well as to others struggling with issues of ethnicity migration incipient agriculture and linguistic origins *Nursing Research Using Ethnography* Mary De Chesnay, 2014-07-28 Print CourseSmart **Monarchs in a Changing World** Karen S. Oberhauser, Kelly R. Nail, Sonia Altizer, 2015-11-16 Monarch butterflies are among the most popular insect species in the world and are an icon for conservation groups and environmental education programs Monarch caterpillars and adults are easily recognizable as welcome visitors to gardens in North America and beyond and their spectacular migration in eastern North America from breeding locations in Canada and the United States to overwintering sites in Mexico has captured the imagination of the public Monarch migration behavior and chemical ecology have been studied for decades Yet many aspects of monarch biology have come to light in only the past few years These aspects include questions regarding large scale trends in

monarch population sizes monarch interactions with pathogens and insect predators and monarch molecular genetics and large scale evolution A growing number of current research findings build on the observations of citizen scientists who monitor monarch migration reproduction survival and disease Monarchs face new threats from humans as they navigate a changing landscape marked by deforestation pesticides genetically modified crops and a changing climate all of which place the future of monarchs and their amazing migration in peril To meet the demand for a timely synthesis of monarch biology conservation and outreach Monarchs in a Changing World summarizes recent developments in scientific research highlights challenges and responses to threats to monarch conservation and showcases the many ways that monarchs are used in citizen science programs outreach and education It examines issues pertaining to the eastern and western North American migratory populations as well as to monarchs in South America the Pacific and Caribbean Islands and Europe The target audience includes entomologists population biologists conservation policymakers and K 12 teachers Biogeography Mr. Rohit Manglik,2023-12-23 Studies the distribution of plants and animals across space and time examining ecological processes biodiversity patterns habitat dynamics and species adaptation **The Oxford Handbook of Digital Technology and Society** Simeon Yates,Ronald E. Ancient Africa Christopher Ehret, 2024-11-05 A panoramic narrative that places ancient Africa on the stage of world history This book brings together archaeological and linguistic evidence to provide a sweeping global history of ancient Africa tracing how the continent played an important role in the technological agricultural and economic transitions of world civilization Christopher Ehret takes readers from the close of the last Ice Age some ten thousand years ago when a changing climate allowed for the transition from hunting and gathering to the cultivation of crops and raising of livestock to the rise of kingdoms and empires in the first centuries of the common era Ehret takes up the problem of how we discuss Africa in the context of global history combining results of multiple disciplines He sheds light on the rich history of technological innovation by African societies from advances in ceramics to cotton weaving and iron smelting highlighting the important contributions of women as inventors and innovators He shows how Africa helped to usher in an age of agricultural exchange exporting essential crops as well as new agricultural methods into other regions and how African traders and merchants led a commercial revolution spanning diverse regions and cultures Ehret lays out the deeply African foundations of ancient Egyptian culture beliefs and institutions and discusses early Christianity in Africa A monumental achievement by one of today's eminent scholars Ancient Africa offers vital new perspectives on our shared past explaining why we need to reshape our historical frameworks for understanding the ancient world as a whole [Graphics Interface 2014](#) Paul G. Kry, Andrea

Bunt, 2020-11-25 This book is the proceedings of the 40th annual Graphics Interface conference the oldest continuously scheduled conference in the field The book includes high quality papers on recent advances in interactive systems human computer interaction and graphics from around the world It covers the following topics shading and rendering geometric modeling and meshing image based rendering image synthesis and realism computer animation real time rendering non photorealistic rendering interaction techniques human interface devices augmented reality data and information visualization mobile computing haptic and tangible interfaces and perception **Classical and Modern Interactions** Karl

Galinsky, 2010-07-22 Postmodernism multiculturalism the alleged decline of the United States deconstruction leadership and values these topics have been at the forefront of contemporary intellectual and cultural debate and are likely to remain so for the near future Participants in the debate can usefully enlarge the perspective to a comparison between the Greco Roman world and contemporary society In this thought provoking work a noted classics scholar tests the ancient modern comparison

showing what it can add to the contemporary debates and what its limitations are Writing for intellectually adventurous readers Galinsky explores Greece and Rome as multicultural societies debates the merits of classicism in postmodern architecture discusses the reign of Augustus in terms of modern leadership theories and investigates the modern obsession with finding parallels between the supposed decline and fall of Rome and the decay of U S society Within these discussions Galinsky shows the continuing vitality of the classical tradition in the contemporary world The Greek and Roman civilizations have provided us not only with models for conscious adaptation but also points for radical departures This ability to change and innovate from classical models is crucial Galinsky maintains It creates a reciprocal process whereby contemporary issues are projected into the past while aspects of the ancient world are redefined in terms of current approaches These essays result in a balanced assessment and stimulating restatement of some major issues in both contemporary U S society and the Greco Roman world The book which speaks to a wide interdisciplinary audience is based on a series of lectures that Galinsky gave as a national visiting scholar for Phi Beta Kappa It concludes with a discussion of the role of classical studies in the United States today **Research in Education** ,1972-05 **Mountain Biodiversity** Christian Korner,Eva M. Spehn,2024-11-01

This book is the result of the first global conference on mountain biodiversity and is a contribution to the International Year of Mountains 2002 The Global Mountain Biodiversity Assessment program is a Special Target Area Region project of DIVERSITAS UNESCO and UNEP Biological diversity is essential for the integrity of mountain ecosystems and this dependency is likely to increase as environmental climate and social conditions change Steep terrain and climate and severe land use pressure cause mountain ecosystems to rank among the world s most endangered landscapes The 28 chapters in this book represent research on the biological riches in all major mountain ranges of the world and synthesize existing knowledge on mountain biodiversity from diversity of bacteria plants and animals to human diversity The book is divided into five sections an introduction providing an overview of the issues plant and animal diversity climate change and mountain biodiversity land use and conservation and a synthesis *Critical Qualitative Research in Social Education* Cameron

White,2015-03-01 Critical qualitative research informs social education through a lens that ensures the investigation of issues in education tied to power and privilege ultimately leading to advocacy and activism The concept of critical is increasingly challenged in this age of neoliberal reform nevertheless critical implies questioning investigating and challenging in terms of equity and social justice leading to critical consciousness Freire 1970 While we resist defining social education as hopefully these ideas concepts are fluid the idea stems from a continual analysis and synthesis of critical theory critical pedagogy media and cultural studies social reconstruction social justice and social studies education framed by culturally responsive pedagogy A social education take on critical qualitative research thus suggests multiple truths and perspectives and focuses on questions rather than answers While many have written on qualitative educational research and some have attempted to integrate critical pedagogy and qualitative research few have explored the specific idea of social

education and critical qualitative research A major issue is that social education claims that there are no set procedures scripted approaches or narrow definitions as to the possibilities of research endeavors Social education researchers make the process and investigation their own and adapt questions procedures methods and strategies throughout the experience This reflects an ever changing criticality in the bricolage of the research Steinberg 2011 Critical qualitative research and social education are vital for the world of the 21st century The onslaught of neoliberalism corporatization standardization testing and the continuing attack on public schools and educators necessitate critical approaches to teaching and learning along with critical qualitative research in social education Ongoing issues with equity and social justice tied to race ethnicity class orientation age and ability linking to schooling education teaching and learning must be addressed The struggle between unbridled capitalism and democracy warrant these investigations in the 21st century hopefully leading to advocacy and activism
