The Gospel of Education Martin Zschoche, 2021-01-02. Re-explore teaching from the depths of brain-based, accelerated learning research that reveals how students learn and respond to classroom environments and teacher interactions. By creating a warm and welcoming atmosphere complete with music and fun, your students learn how much you care for them and understand their needs. Your words are powerful, and everything you do or say sends a message, consciously or non-consciously, to your students. Through purposeful classroom management and choreographed instruction, grab your students' attention and keep them so focused there is no time to become distracted or misbehave. By removing students' fear factors and giving them leadership roles, students take ownership of the classroom, productively engaging with each other and learning deeply together. Turn assessments into a joyful experience of profound learning. Be that teacher the students remember fondly years after they leave school, the one about whom they say, "We learned sooooo much and we remember it."
