

# WORLD WAR 1

## Reasons why World War 1 broke out

- ° A war is a state of violent armed conflict between countries or between competing forces within a country
- ° These wars were known as 'world' wars because they involved many countries spread around the world.
- ° There were both long-term, immediate causes of the first world war:
  - Long term causes include nationalism, industrial economies, the control of the seas, colonisation, the decline of the empires.

## Overview of long-term causes

- ° It can be argued that none of the European countries wanted a war: But some blame Germany, some Russia, her ally France, others have laid most of the blame on Serbia (the small country at the centre of the event that sparked the war)
- ° **Britain, France and Russia** were the members of the Triple Entente
  - Three countries were allies, would support one another against any threats- mostly meant Germany.
  - Britain had the most powerful navy in the world- fearful of increase in German military power in Europe itself.
  - Russia, most powerful Slavic country wanted to protect Serbia, small Slavic state.
  - France was traditional rival of Germany, wanted to regain territory of Alsace- Lorraine that Germany held since winning the Franco- Prussian War in 1871
  - **Countries of the Entente came to be known as the Allies during the war.**
- ° **Germany, Austria and Italy** were members of the Triple Alliance
  - Agreed to support one another if there was an attack from France or Russia.
  - Italy fought on side of triple Entente countries in World war 1
  - Germany → strengthen weakening Triple Alliance (in reaction to growing strength of the Entente), increase her economic power in Europe, the world
  - Austria- European empire consisting of number of different national groups → afraid her empire was falling apart – growing nationalism of countries in it (needed to stamp her authority on parts of her empire)
